

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

REPORT.

TO THE QUEEN'S MOST EXCELLENT MAJESTY.

*Poor Law Board, Whitehall,
24th May 1860.*

MAY IT PLEASE YOUR MAJESTY,

We, the Poor Law Board, beg leave to present to Your Majesty the following Report of our proceedings during the past year.

We are happy to be able to state, that since the Poor Law Amendment Act came into operation the sum annually expended for "Relief to the Poor" has very largely decreased, and that this expenditure is in a diminishing ratio when compared with the population and wealth of the country.

*Expenditure
for Relief
before and
after the
passing of
the Poor
Law Amend-
ment Act.*

The Poor Law Amendment Act came into operation in the autumn of 1834. During the twenty-two years preceding, that is, from 1813 to 1834, the aggregate sum expended for the relief of the poor in England and Wales was 143,110,817*l.*, a sum equivalent to an annual average disbursement of 6,505,037*l.* In the subsequent twenty-five years, that is, from 1835 to 1859, the aggregate sum expended was 129,226,833*l.*, a sum equivalent to an annual average expenditure of 5,169,073*l.* Hence, during a quarter of a century there has been an average annual decrease of 1,335,964*l.*, and a total decrease during the twenty-five years of 33,399,100*l.*

*Absolute
Decrease.*

This saving has been effected notwithstanding the heavy additional burdens which have been imposed upon the poor rates, and charged in the item "relief to the poor," since 1834. Two of these burdens, the cost of the new union workhouses and the salaries of the paid union officers, have not averaged less than 800,000*l.* a year; 200,000*l.* a year for the former, and 600,000*l.* for the latter; being a total amount of 20,000,000*l.* for the two charges together during the twenty-five years in question.

The diminution of the law charges, and of the expenses of the removal of paupers, since 1834, has been a marked feature in the recent administration of the Poor Law. In the years 1833 and 1834 these expenses averaged 256,508*l.* per annum; in the four following years they averaged 148,973*l.* In subsequent years

these items declined still more; and according to the latest returns, namely, those of 1857, the amount was only 80,733*l.*, or less than *one third* of the average expenditure of 1833 and 1834.

Relative
Decrease.

The decrease, if viewed in relation to the population, is equally satisfactory.

The average annual population from 1813 to 1834 was 12,583,000; the rate per head on that number for relief was 10*s.* 4*d.*; the average population from 1835 to 1859 was 17,087,297, and the rate per head 6*s.* 0½*d.*, or a decrease of 4*s.* 3½*d.* per head; that is, 42 per cent. Had the expenditure from 1835 to 1859 remained at 10*s.* 4*d.* per head, the total sum expended in relief during the last quarter of the century would have been 220,705,900*l.*, instead of 129,226,833*l.*, or *ninety-one millions* more than has been actually expended.

The decrease in relation to the wealth of the country, so far as any comparison can be instituted, is also remarkable. No strict comparison between the expenditure for relief and the income of the country is practicable, owing to the fact that no accurate statistics exist of the annual profits and earnings of the people. There are, however, one or two important exponents of the wealth of the community with which the relief expenditure may be compared. The first is the annual value of real property assessed to the property tax. The property tax assessment (under Schedule A.) falls, very nearly, upon the same property as that upon which the poor rate is levied. In 1815 the assessment in question was 51,898,423*l.*; the average expenditure for relief in the three years 1814, 1815, and 1816 was 5,812,755*l.*, which was equal to a rate of 2*s.* 3*d.* in the pound on the property tax assessment. In 1857 the annual value of real property was 103,496,253*l.*; the average expenditure for relief in the three years 1856, 1857, and 1858 was 5,778,662*l.* or, 1*s.* 1½*d.* in the pound. It will be thus seen that a decrease of 50 per cent. had taken place in the latter as compared with the former period.

The second mode of instituting a comparison is the declared value of imports and exports of the United Kingdom, by which the expansion of trade, commerce, and manufactures is indicated. During the five years ended on the 31st December 1833 the declared value was on the average 83,567,482*l.*; the average expenditure for relief during the five nearest parochial years, that is, from 1830 to 1834, was 6,754,591*l.* Had this sum been raised by a tax upon the imports and exports it would have required a levy of 1*s.* 7½*d.* in the pound. But during the five years ended with 1858 the average declared value had risen to 295,718,831*l.*; the average relief of the five years ended at Lady-day 1859 was 5,845,980*l.*, or 4½*d.* in the pound only on the declared value of the imports and exports. Regarded through this medium, the poor-rate expenditure has decreased upwards of 75 per cent.

A minor but perhaps not less interesting exponent of the country's wealth is found in the amount of deposits in the savings banks of England and Wales.

In the three years 1832, 1833, and 1834 the average amount of deposits and interest in the savings banks of England and Wales was 15,697,354*l.*; the average relief in the three parochial years 1832, 1833, and 1834 was 6,715,008*l.* Thus, for 1*l.* annually spent in relief, 2*l.* 6*s.* 9*d.* had been accumulated in the savings banks. But in the three years 1855, 1856, and 1857 the deposits and interest had risen to an average of 36,830,795*l.*, and the relief for the three parochial years 1855, 1856, and 1857 was on the average 5,931,014*l.*; so that for 1*l.* yearly paid in relief 6*l.* 4*s.* 2*d.* had been placed in the savings banks. The accumulated savings had gained upon the annual relief in a ratio nearly threefold.

A consideration of these facts and figures would appear to show conclusively that the expenditure for the relief of the poor is, as shown under the relations just adverted to, about two thirds less than it was previously to the passing of the Poor Law Amendment Act, and this decrease it will be remembered has taken place notwithstanding the large items of additional cost to which we have adverted.

We desire now to submit, as in former reports, statements showing the condition of pauperism during the past year.

The sum of 5,558,689*l.* was expended for the relief of the poor during the year which ended the 25th of March 1859, being a decrease of 319,853*l.* as compared with the sum expended during the preceding year.

Expenditure
for Relief
during the
Year ended
at Lady-day
1859.

The following Table shows the comparison of the expenditure of the years 1857-8 and 1858-9 :—

Note.—The Summary of the Poor Rate Return inserted in the Appendix (page 44) sets forth the expenditure, the total of which is shown in the above Table, more in detail. This expenditure comprises, “in-maintenance,” column (a); “out-relief,” column (b); “maintenance of lunatics in asylums and licensed houses,” column (c); “workhouse loans repaid, and interest thereon,” column (d); “salaries and rations of officers,” column (e); “other expenses of or immediately connected with relief,” column (f). Those “other expenses” comprehend the cost incurred for emigration, for extra medical relief and fees, and for the burial of paupers, &c.

The rate per cent. of the increase and decrease respectively in the expenditure for relief, as regards each union-county in England and Wales, is as follows :—

The preceding statements, taken from the Annual Poor Rate Returns, have reference to the year ending at Lady-day in each case, and comprise the expenditure for all purposes connected with the relief of the poor in England and Wales.

The following statements show the amount expended for relief only, in 628 Unions and Parishes under Boards of Guardians (comprising a population of 16,529,865, census 1851), and afford the means of comparing the expenditure under that head for the years ending respectively on the 29th of September 1858 and 1859, as well as those ending on the 25th of March of the same years :—

Irremovable
Paupers.

The amount expended for in-maintenance and out-door relief to irremovable paupers during the year ended at Lady-day 1859, is shown in respect of each union (so far as the returns enable us to discriminate it, from the cost of the same items of relief incurred in regard to other paupers) at page 150 of the Appendix.

The unions making separate returns of this class of expenditure contain about *fifteen seventeenths* of the entire population. The figures in the following Table, have been abstracted from the Appendix to this and the four preceding annual reports.

The persons in receipt of relief in certain parishes incorporated under Gilbert's Act, or in single parishes still under 43d Elizabeth, (the population of such parishes being 423,627) are not included in the summaries given in this and the preceding page no returns having been received from them. Estimate of the Pauperism of England and Wales.

We have, therefore, made an estimate of the numbers in receipt of relief in the places not included in the above summaries, based on the actual numbers in receipt of relief in the places which are included therein. The population of the unreturned places for which this estimate is made is 423,627;

while that of the returned places is 17,503,982. For the purpose, then, of showing the average numbers *at one time* in receipt of relief during the whole year, both in the unreturned and the returned places, we have taken the mean of the numbers in receipt of relief on the 1st of July and the 1st of January respectively.

The result of this estimate for each year from 1849 (being the first year for which it can be given) to 1859 appears in the following Table, which may be taken as exhibiting the pauperism of England and Wales.

* The Population for 1851 is that given in the Census ; that for the other years is estimated.

The decrease in the average number of paupers of all classes in receipt of relief at one time in 1859, as compared with 1849, is 20·5 per cent. ; and as regards able-bodied paupers the decrease in 1859, as compared with 1849, is 40·7.

Classifica-
tion of out-
door able-
bodied
Paupers.

The returns of pauperism in the Appendix at pp. 169-192 do not necessarily show the distinction which exists between the condition of the in-door and the out-door pauper.

The inmate of a workhouse is clothed, fed, and lodged, and has all his wants supplied in the establishment, at the exclusive cost of the rates.

The case is different, however, with the out-door pauper. He may occupy a house, and pay a rent for it. The relief, or rather assistance afforded to him, is generally in money or kind ; and is frequently only of a temporary character ; the occasion for requiring it being his own sickness, or that of some member of his family. Sometimes the assistance afforded is confined to medical relief alone ; or to providing an outfit and premium on the apprenticing of a child, or an outfit upon a child's entering into service.

There is also another point in connexion with the returns upon which it is desirable to prevent misapprehension. On reference to the return at page 184 it will be seen that there was a large number of able-bodied paupers relieved out of the workhouse. In 629 unions returns are made to the Board according to the form prescribed by the General Order for keeping accounts, which reckons the children of able-bodied paupers residing with them in the number of the able-bodied. In these unions it appears that there were on the 1st of January 1860, 314,391 out-door able-bodied paupers, of whom

26,286 only were adult males.
85,151 „ females.
202,954 children under 16.

The proportionate numbers, therefore, may be taken as *one* adult man, *three* adult women, and *eight* children under 16 years of age.

Of the 26,286 adult males, it will be observed that 24,505 were relieved on account of *sickness, accident, or infirmity*; and that 1,687 were relieved on account of the want of work and other causes; and 94 only on account of sudden and urgent necessity.

The causes which brought these 314,391 cases upon the rates are specified in the annexed statement:—

Pauperism
in the
Metropolis.

The Metropolis has fully participated in the improved condition of the labouring classes which has distinguished the past year. The returns of pauperism show that a decrease in the numbers relieved has, with few exceptions, taken place in every week of the last year as compared with the corresponding week of the previous one. (See weekly returns, pp. 194–263.)

Comparing the last day of the last week of each quarter of 1858 and 1859 respectively, the following are the results as regards the Metropolis :—

	Number of Paupers relieved (exclusive of Lunatics in Asylums and Vagrants).			
	Lady-day Quarter.	Midsummer Quarter.	Michaelmas Quarter.	Christmas Quarter.
1858 . .	106,942	85,772	85,351	95,892
1859 . .	93,232	84,216	83,952	91,665
Decrease .	13,680 or 12·80 per Cent.	1,556 or 1·81 per Cent.	1,399 or 1·64 per Cent.	4,227 or 4·41 per Cent.

The last year closed with a smaller number of paupers on the relief lists than on the two previous years ; for in 1857 the numbers were 101,938 ; in 1858, 95,892 ; and in 1859, 91,665 ; so that there is a decrease of 10·08 per cent. in the last year as compared with 1857.

Arranging the Metropolitan Unions into five districts, as shown in the Table at page 264, it will be observed that each district is marked by diminished pauperism.

The South District, which comprises all the Unions to the south of the Thames, does not exhibit results so favourable as the other parts of the Metropolis.

We have caused the lists of lunatics, idiots, and other persons of unsound mind chargeable to the poor rates on the 1st January 1859, to be tabulated. The importance of the information contained in the lists induced us to incorporate the Return with the series which we periodically present to Parliament under the title of "Poor Rates and Pauperism." It was published in October last as "Return (E)—Insane Paupers;" the principal summaries are reprinted at page 266 of the Appendix.

Insane
Paupers,
1st January
1859.

It appears from these that in 645 unions and single parishes under Boards of Guardians, there were 30,318 insane paupers, of whom 21,432 were lunatics and 8,886 idiots. The whole number of paupers, inclusive of the insane, was on the same day 867,543.

In regard to the sexes, it will be seen that 13,389 were males, and 16,929 females.

Insane Paupers.	Males.	Females.	Total
Lunatics - -	9,280	12,152	21,432
Idiots - -	4,109	4,777	8,886
Total - -	13,389	16,929	30,318

These paupers were maintained in the following establishments; or were lodged with strangers; or resided with their relatives; viz.—

- 14,481 in County or Borough Lunatic Asylums.
- 2,076 in Registered Hospitals, or in Licensed Houses.
- 7,963 in Union or Parish Workhouses.
- 906 in Lodgings, or Boarded Out.
- 4,892 Residing with Relatives.

The ages of the Insane and the supposed age of attack of the Lunatics are set forth, with other particulars, in the Appendix at page 266 *et seq.*

A statement will be found in the Appendix (page 290), showing the average number of children attending Workhouse Schools in England and Wales, as well as the number attending District Schools, during the half year ended at Lady Day 1859; and also the amount of money paid in each case, from the Parliamentary Grant, in respect of the salaries of teachers. The following is a summary of this statement:—

The amount paid to Boards of Guardians out of the Parliamentary grant in respect of the salaries of workhouse and district school teachers, for the year ended at Lady-day 1859	£	s.	d.
	31,116	10	11

The average number of children in *Workhouse* Schools is 26,513; in 19 *separate* Union or *Parochial* Schools 4,381; and in 6 *District* Schools 2,682; making a total, as shown above, of 33,576 children under instruction. We are sensible, however, of the great advantages of *separate* and of *District* Schools, as compared with Schools forming parts of *Workhouses*; and we avail ourselves of every suitable opportunity for promoting the establishment of the former classes of schools.

We have received from our Inspector, Mr. Farnall, a brief report on the *District* and *Workhouse* Schools of the Metropolis. He observes,—

“ The marked decrease of pauperism, which is still progressing throughout the Metropolitan districts, will satisfactorily account to your Board for a proportionate diminution in the number of children receiving education in the *District* and *Workhouse* Schools.

“ It is shown at page 14 of your annual Report for 1858–59, that 6,900 children were then receiving a moral, mental, and industrial training in those establishments under efficient instructors, but there are now only 6,268 children being similarly educated.

“ The useful and suitable branches of industry, specified in my last report to your Board as being actively practised in the schools, are still closely pursued, and the number of children, who are thus instructed, has increased. There are at present 3,299 children being diligently trained in industry,

“ and I may add that music, to fit boys for the bands of the
“ army or navy, has proved a singularly successful experiment.

“ During the year ended Christmas 1859, 382 children were
“ sent to carefully selected places of service from the Central
“ London, North Surrey, and South Metropolitan District
“ Schools, and it will afford you great gratification to learn
“ that an extremely small number of these children lost their
“ situations through any misconduct of their own.

“ The managers of these valuable establishments have, I am
“ assured, endeavoured at all times to conduct them with strict
“ economy, and the accurate supervision which they have in-
“ stituted is now securing for the ratepayers and the children
“ the maintenance of a careful and salutary system of expendi-
“ ture; there was a marked decrease of outlay last year, as
“ compared with that of the year ended Lady-day 1856, when
“ it became necessary for me to bring this essential subject
“ under the consideration of the managers.

“ In the cost of the rations of the officers of the three District
“ Schools there has been a saving of 29·1 per cent., which was
“ mainly effected by a wholesome reformation in the manage-
“ ment of the Central London Schools; in the North Surrey
“ Schools there has been a saving of 23·0 per cent. on the annual
“ cost of maintaining and clothing each child; in the South
“ Metropolitan Schools 9·1 per cent. was so saved; and in
“ the Central London Schools 20·5 per cent. was saved on a
“ similar expenditure.

“ But, notwithstanding the important saving thus satisfac-
“ torily and rapidly accomplished, the average annual cost for
“ the maintenance and clothing of each child in the three Dis-
“ trict Schools for the year ended September 1859 was (inde-
“ pendently of all common charges) 8*l.* 9*s.* 9*d.* or 3*s.* 3½*d.* per
“ week; the saving, therefore, great as it has been, admits, as
“ it seems to me, of a still further extension.”

The great increase of the population in the Port of Hartlepool and its neighbourhood in the county of Durham during the last few years rendered the arrangements in force for the relief of the poor therein inconvenient and unsatisfactory. We, therefore, deemed it necessary to divide the Stockton Union, which previously comprised that port, and to form a new Union termed the Hartlepool Union. The order for its formation came into operation on the 25th of March 1859; the particulars are shown in the Appendix, page 312.

Formation
of the
Hartlepool
Union.

The number of persons who have been assisted to emigrate under the orders of the Board during the last year was only 95, and though we are aware of some other instances where aid was given without our order, and therefore irregularly and illegally, still we must consider that at present emigration cannot be considered as any practical remedial measure for the repression of pauperism.

Emigration.

Vaccination. A summary of the Returns received from the several Unions and Parishes in England and Wales, of the number of persons vaccinated by the public vaccinators during the year ended at Michaelmas 1859, shows the number to have been 455,349, out of which the vaccination has been successful in 445,020 cases. See App. page 315.

Workhouses built or altered. We have affixed our seal to the plans of new workhouses for the following Unions: viz., East Grinstead for 260 inmates, Helmsley for 54, Penistone for 120, Rochdale for 130, Swansea for 350, and Bristol* for 1,160 inmates; and to plans of school-houses for the City of Exeter and for the Portsea Island Union; and also to plans for the enlargement or improvement of the workhouses of the following Unions and Parishes: viz., Alston with Garrigill, Brentford, Bury St. Edmunds, Cardiff, Colchester, Cosford, East Hampstead, Greenwich, Kingston (Surrey), Keynsham, Lambeth, Manchester and for its School at Swinton, Rochdale, Romford, Sheffield, Saint Leonard Shoreditch and for the School of the same Parish at Brentwood, Southampton, Ticehurst, Totnes, Torrington, Uckfield, Warwick, Wem, and Windsor. We have also affixed our seal to plans of new Board Room Offices for the Township of Leeds, and for the Hamlet of Mile End Old Town.

Religious Instruction of orphan Children in Work-houses. We have to observe that on the 23d of August last we issued an order upon the subject of the religious instruction of orphan children in Workhouses who have no known or ascertained god-father or godmother.

The order in question was framed simply with a view of extending to such children the same amount of religious freedom as is secured to other children in the Workhouse by the express provisions of the Act 4 & 5 Will. 4. c. 76. s. 19. A copy of the order in question, together with an explanatory letter, is inserted in the Appendix, page 29-34.

Qualification of Medical Officers. The establishment of the General Medical Council and the system of registration for all members of the medical profession, together with the alteration of the law in reference to the qualification of such persons to practise in all parts of Her Majesty's dominions, enabled us to reconsider the General Orders of the Board regarding the qualification of medical officers for unions and parishes. We, therefore, framed another order requiring, in general terms, that all medical officers besides being registered should possess a legal qualification to practise both medicine and surgery in England and Wales, issuing from some competent legal authority in Great Britain or Ireland.

* The plans approved of in 1856 for enlarging the Bristol Workhouse have been abandoned.

In the circular letter which accompanied the order we pointed out the several public bodies in England, Scotland, and Ireland who were authorized to confer such qualifications, according to the advice with which the General Medical Council at their meeting in August last had favoured us upon our request.

Some other bodies have represented to us that they are also empowered to grant similar qualifications, but as we had not been able to obtain further advice from the General Medical Council, whose next sitting will not take place until next autumn, we did not think it correct to insert the names of these bodies in that letter. At the same time, however, we intimated that, though not mentioned therein, their diplomas or licences, if legally sufficient, would be available under the terms of the General Order.

A copy of this order and of the circular letter which accompanied it will be found in the Appendix, page 35-40.

In our last report we stated that we had issued orders to four boards of guardians in the metropolis requiring them to appoint auditors, and that three of them had accordingly made appointments of such officers; but that the guardians of the poor of the parish of Saint James Westminster had declined to do so. We were, therefore, compelled to take proceedings by an application to the Court of Queen's Bench for a mandamus requiring them to make the appointment. The writ was granted, and a return having been filed in answer, that Court after argument gave judgment in favour of the Crown, and the defendants having brought a writ of error, the Court of Exchequer Chamber in the sittings after Trinity Term last affirmed that judgment. The guardians have since appointed an auditor.

We have not in our recent reports referred specially to what may be termed the legal branch of poor law administration; and we therefore propose briefly to state the nature of the legal and judicial functions exercised by the Poor Law Board.

Legal
Branch
of Poor Law
Adminis-
tration.

The cases in which the Board exercise a judicial function fall chiefly within the following classes:—

1. Questions relating to the settlement, removal, or chargeability of paupers; which may be brought before the Board in two different ways.

First, they may be submitted, by the mutual agreement of the parties interested, for the decision of the Board, either under the Act 11 & 12 Vict. c. 110. s. 4., or under the later Act, 14 & 15 Vict. c. 105. s. 12. If this be done, we require the parties to agree upon the facts, and also upon the precise question which they wish the Board to decide, and to set them out in a statement jointly signed.

But, secondly, if the parties cannot agree upon the facts, the question may be raised before the Board by way of appeal against the auditor's decision with respect to the allowance or disallowance of the charge for the pauper's relief in the union accounts. In such a case, the auditor states his reasons in the book of account, and if, for the purpose of determining the appeal, the Board find it necessary to investigate the facts, they do so either by correspondence or (as has occurred in some few instances) by means of an examination on oath, conducted by the inspector.

The aid which is rendered to the guardians, overseers, and ratepayers by the Board in the determination of these cases, which are very numerous, and of daily occurrence, is important, both in facilitating the administration of the law, and in saving expense.

All the questions thus raised, whether of disputed fact or of doubtful law, are of a kind which would (or might) have been taken either to the quarter sessions or to the Court of Queen's Bench, if they had not been brought within the jurisdiction of the Board; and, consequently, if they were withdrawn from that jurisdiction, the parties would be again thrown back upon the tedious and costly litigation of the sessions or the superior court.

The beneficial effect of this exercise of the Board's jurisdiction may be in some degree indicated by the fact of the large diminution which has taken place in the number of cases of this kind brought before those Courts.

It is not easy to estimate the cost of the litigation involved in these cases; but we may state that the total expenditure out of the Poor Rate for law costs in the last year preceding the Poor Law Amendment Act (i. e. the year ended at Lady-day 1834) throughout England and Wales amounted to 258,604*l.*; whilst the expenditure for the same purpose in the year ended at Lady-day 1857 was only 80,733*l.*; showing a reduction of no less a sum than 178,000*l.* per annum, which is attributable, no doubt, in some degree, both to amendments in the law and to improvements in its administration, but also (and to a considerable extent) to the direct action of the Board, as well in determining judicially the cases within their jurisdiction as in affording legal advice generally when applied to by the guardians, overseers, and others.

2. Appeals against the decisions of the district auditors, in allowing, disallowing, or surcharging items in the union and parish accounts.

These appeals may be brought under 7 & 8 Vict. c. 101. ss. 35 and 36, and 11 & 12 Vict. c. 91. s. 4.; and they require the Board to consider two questions; first, whether the auditor's decision is lawful; and if it is, then, secondly, whether the circumstances are such as to justify the Board in remitting the surcharge or disallowance on equitable grounds.

There is an alternative right of appeal to the Court of Queen's Bench in these cases, as regards the lawfulness of the auditor's decision; but as the appeal to that Court necessarily involves considerable expense, and as the equitable jurisdiction of the Board, enabling them to relieve the appellant from the consequences of a lawful surcharge or disallowance, is not possessed by that Court, the appeals to it are very few, and nearly all the appeals against the auditor's decisions are in fact addressed to the Board.

3. Questions relating to the election of guardians, where the right of any elected guardian to act is disputed under 5 & 6 Vict. c. 57. s. 8.

In these cases the Board are called upon to investigate the facts (which they frequently do by means of an inquiry on oath, conducted by an inspector), and to decide the matter in dispute, with due regard both to the facts and to the law. There are generally several of these cases every year, and some of them of a very difficult and intricate character, especially as regards the facts and the evidence, as they usually involve much local excitement and ill-feeling.

Besides the cases thus directly dealt with under that Statute, the Board are frequently asked for their advice or opinion on questions connected with the election of Guardians, for the information or guidance of the various officers and persons interested; and they are also called upon to issue orders for the supply of vacancies, which often involve preliminary legal questions with regard to the occurrence of the vacancy and the propriety of issuing the order.

Besides those cases in which the Board act as a judicial tribunal, there is a variety of matters or occasions on which their legal advice or assistance is required or sought for by the persons engaged or interested in the practical administration of the law. Among these the following may be mentioned:—

1. Questions of all kinds relating to the interpretation and execution of the law, as well as of the orders of the Poor Law Commissioners and of the Poor Law Board, which are asked by guardians, overseers, union and parish officers, ratepayers, paupers, and others, where a dispute or a difficulty arises; and they form a large and important branch of the correspondence.

2. Various matters involving a mixture of law and administration, such as the orders which the Board are called upon to issue under the Vestries Act, 13 & 14 Vict. c. 57, the parochialization of extra-parochial places under 19 & 20 Vict. c. 10., the burial of the poor, vaccination, registration, the education of pauper children, the maintenance of pauper lunatics in asylums, and many others, amongst which must be included the cases occurring under the late Act for the payment of debts by boards of guardians, 22 & 23 Vict. c. 49; and the cases, which are of continual re-

currence, of costs of prosecutions by boards of guardians, as to which the 7 & 8 Vict. c. 101. s. 59. requires the Poor Law Board to direct the mode in which they shall be charged in the union accounts.

3. Amendments of the law and of the orders of the Poor Law Commissioners or Poor Law Board, which orders, being acts of subsidiary legislation with the force of statutes, form in fact part and parcel of the law.

4. Instructional circulars, expository of the law or of the course to be taken in carrying it into effect; such, for instance, as the circular of last year on the rating of tithes.

**Audit of
Poor Law
Accounts.**

We consider it desirable to refer upon the present occasion somewhat in detail to that branch of our administration which relates more strictly to the audit of the Poor Law expenditure.

Previously to the passing of the Statute 7 & 8 Vict. c. 101. in August 1844, each Board of Guardians elected its own auditor; and at that period there were 452 officers of that class.

The mode of proceeding and the practice of so large a number of auditors, although subordinate to statutory authority, and to the general regulations of the Board, exhibited great diversity. But little supervision could, comparatively, be exercised over them, and although they undoubtedly rendered great public service, yet it was evident that the system was susceptible of much improvement.

After the passing of that Statute, districts were formed, and an auditor was nominated and elected for each district.

The favourable anticipations of the results of this change were, we believe, fully realized; many illegal practices were then for the first time checked, the accounts were more strictly investigated, and a system of auditing the expenditure of the rates upon more uniform principles was gradually established.

In 1851 the Board deemed it necessary to bring more immediately under their control the manner in which the duties of district auditors were performed, and they then selected one of their inspectors whose attention was directed almost exclusively to the supervision of the proceedings of the auditors.

The district auditors are 49 in number. There are also 5 auditors for certain of the parishes in the Metropolis governed under Local Acts.

These 54 auditors audit the accounts of the collection and disbursement of all monies raised by means of the Poor Rate, whether actually expended in the relief of the poor, or for such other purposes as that rate may be lawfully applied to.

The sum thus raised and collected for the year ended at Lady-day 1859 was 8,434,788*l*.

The officers who are engaged in raising, collecting, or disbursing the poor rate are :—

Clerks of Unions (representing Boards of Guardians) -	653
Treasurers of Unions - - - - -	653
Masters of Workhouses - - - - -	713
Relieving Officers - - - - -	1,356
Collectors of Poor Rates, nearly - - - - -	5,000
Overseers of 14,600 parishes - - - - -	14,600

Giving a total of 22,975 officers who personally attend before the auditors each half-year, and submit their respective accounts for audit.

Each officer keeps a distinct set of accounts, in accordance with the regulations. The total number of sets of accounts is therefore 22,975.

The number of books of accounts kept and submitted to the auditors by each class of officers is as follows :—

Books kept by Union Clerks - - - - -	3,918
Books kept by Union Treasurers - - - - -	653
Books kept by Masters of Workhouses - - - - -	9,982
Books kept by Medical Officers of Workhouses - - - - -	713
Books kept by Relieving Officers - - - - -	6,780
Books kept by Collectors (nearly) - - - - -	20,000
Books kept by Overseers - - - - -	58,000

It follows that at least 109,546 distinct books of account are submitted to the auditors half yearly, or 219,092 annually.

The number of reports received by the Board from the auditors during the half-year ended at Lady-day last was as follows :—

Reports on Clerks' Books - - - - -	653
Reports on Masters' Books - - - - -	713
Reports on Relieving Officers' Books - - - - -	1,356
Reports of Disallowances, Surcharges, Balances, &c. - - - - -	653
Reports on Books of Collectors - - - - -	1,051
Reports on Books of Medical Officers - - - - -	200
Reports as to the Payment or Recovery of Money found due - - - - -	653
Reports on Bonds of Security - - - - -	653

If allowance be made for reports of a special character, it may be safely said that not less than 6,000 reports are made by the auditors half yearly, or 12,000 annually.

The reports upon "Union Officers' Books" show the state in which each book is presented to the auditor, and sets forth any defect, either in form or substance, that he may have observed when examining it.

The reports upon the "Books of Parochial Officers" show the imperfections noted by the auditor, as well as any neglect of the regulations on the part of the officers which may have attracted his attention.

The reports upon "Disallowances, &c." show what sums have been illegally expended, and what the auditor has to recover, if his proceedings be not reversed, or if the amount be not remitted by the Board.

The reports on "Recovery of Money" show what illegal expenditure has been repaid to the treasurer.

The reports on "Bonds" show whether the officers have given security, and whether proof has been produced that their sureties are living and solvent.

These reports lead to a very voluminous correspondence with the local boards, and with the union and parish officers. They necessitate special visits of inspection, and occasion formal inquiries into the manner in which the accounts are kept, and into the conduct of accounting officers.

Legislation. We have, lastly, to refer to the statute 22 Vict. c. 29. which continues the chargeability of irremovable poor upon the common fund of the union until the 30th day of September next and to the end of the then next session of parliament; and to the 22 & 23 Vict. c. 44. which continued the Act for the exemption of stock in trade from rating until 1st of October 1862, and thence to the end of the next session of parliament.

22 & 23 Vict. c. 49. The statute, 22 & 23 Vict. c. 49., has been passed in consequence of the decision of the Court of Exchequer Chamber in the late case of "Waddington v. The City of London Union," reported in 28 L. J. R. M. C. 113. & E. B. & E. 370., by which it was held that boards of guardians could not make legal orders of contribution upon the parishes in their unions for the payment of debts previously incurred.

This statute contains provisions to define and limit the period during which debts thereafter incurred by boards of guardians or district boards of management may be paid, and it also makes special provision in respect of debts incurred before the passing of the Act.

Sect. 1. provides that in future every debt, claim, or demand shall be paid within the half year in which it shall have been incurred or become due, or within three months after the expiration of such half year, *but not afterwards*, power being given to the Poor Law Board to extend the time for a period not exceeding twelve months after the date of such debt, claim, or demand.

Sect. 2. provides for the payment of debts incurred before the passing of the Act.

Sect. 3. provides for the payment of loans where the poor rates have been charged by way of security. Sect. 4. refers to cases where actions or other proceedings are brought against boards of guardians or boards of management; and sect. 5. enables the payment of attorneys' bills incurred by such guardians or

managers in the course of any action, suit, or other proceeding to be postponed until the final determination thereof.

Sect. 6. provides that no call or order for contribution, nor any call made to meet such call or order, shall be deemed to be illegal because it is made to pay any debt the payment whereof is authorized by that Act, or because it includes a balance due from any parish at the time when the half-yearly accounts were made up and balanced; and it provides also that when the fund out of which any such debt should have been discharged shall have been already paid by any parish to the board of guardians, and shall not have been applied for that purpose, any funds required to be contributed to discharge such debt shall be levied on each parish in the union in proportion to the rateable value of each such parish.

All which we humbly present to Your Majesty.

C. P. VILLIERS,
President.

APPENDIX.

No. 1.

RELIGIOUS INSTRUCTION OF ORPHANS IN WORKHOUSES.—GENERAL ORDER of the POOR LAW BOARD.

To the GUARDIANS of the POOR of the several UNIONS named in the Schedules hereunto annexed ;—

To the Churchwardens and Overseers of the Poor of the several Parishes comprised in the said Unions ;—

To the Clerk or Clerks to the Justices of the Petty Sessions held for the Division or Divisions in which the said Unions are respectively situate ;—

And to all others whom it may concern.

WHEREAS by the Act passed in the Fifth Year of the Reign of King William the Fourth, Chapter Seventy-six, it was, among other things, enacted, that no Rules, Orders, or Regulations of the Poor Law Commissioners, nor any byelaws then in force, or to be thereafter made, should oblige any inmate of any Workhouse to attend any religious service celebrated in a mode contrary to the religious principles of such inmate, nor should authorize the education of any child in a Workhouse in any religious creed other than that professed by the parents or surviving parent of such child, and to which such parents or parent should object, or in the case of an orphan, to which the godfather or godmother of such orphan should object ; and it was also provided that it should and might be lawful for any licensed minister of the religious persuasion of any inmate of such Workhouse, at all times in the day, on the request of such inmate, to visit such Workhouse for the purpose of affording religious assistance to such inmate, and also for the purpose of instructing his child or children in the principles of their religion ;

And whereas by an Order bearing date the Seventeenth day of March One thousand eight hundred and forty-seven, being a General Order, issued to the several Unions mentioned in the First Schedule hereunto annexed, and by various special Orders subsequently issued to the several Unions mentioned in the Second Schedule hereunto annexed, the Poor Law Commissioners and Poor Law Board respectively have ordered and directed that the Master of every Workhouse of the respective Unions shall punctually enter up and accurately keep a certain Book termed the In-door Relief List, in which shall be entered for each Parish of the Union in the form therein numbered 22 (except as regards the Order relating to the Hartlepool Union, wherein such form is numbered 21) the several particulars set forth in the said form :—

And whereas the religious persuasion of each pauper inmate of the Workhouse is one of the particulars set forth in that form ;

And whereas it is desirable that provision should be made for the entry in such column of the religious persuasion of every orphan child whose godfather or godmother does not give information with regard to the religion of such orphan, and that other means should be taken for securing religious instruction to orphans in Workhouses than exist at present ;

Now therefore, We, the Poor Law Board, under the authority of the Statutes in that behalf made and provided, hereby Order and Direct as follows :—

Article I. That whenever there shall be in the Workhouse any orphan child under the age of fourteen years, the Master of the said Workhouse shall enter in such In-door Relief List, as the religious persuasion of such orphan, the religious creed which was professed by the father of such orphan at the time of his death, if the Master know or can ascertain the same by reasonable inquiry, or, if the same cannot be so ascertained, the creed professed by the mother of such orphan at the time of her death, if the same be known to the said Master, or can be by him in like manner ascertained ;

Provided always, that if the godfather or godmother of such orphan shall make any objection, this article shall not have any force or application.

Article II. Such orphan while an inmate of the Workhouse shall not be instructed in any other religious creed than that so entered, unless he or she being above the age of twelve years shall desire to receive instruction in some other creed, and unless he or she be considered by the Poor Law Board to be competent to exercise a reasonable judgment upon the subject.

Article III. The Master of the Workhouse shall, subject to the directions of the Guardians of the Union, take all practicable steps in order to procure the attendance at the Workhouse from time to time, for the purpose of affording religious instruction to such orphan, of some Minister of the religious persuasion of the said orphan as ascertained according to the provisions of this Order, or according to the information of the godfather or godmother ;

Provided always, that such attendance shall take place at such times as shall not be inconsistent with the discipline and good order of the Workhouse.

Article IV. The provisions herein contained applicable to the Master of the Workhouse shall extend to the Matron in cases in which there shall be no Master, or in which he shall be absent, or his office shall be vacant .

RELIGIOUS INSTRUCTION OF ORPHANS IN WORKHOUSES. — LETTER from the POOR LAW BOARD to certain BOARDS OF GUARDIANS on the subject of the preceding Order.

Poor Law Board, Whitehall, S. W.,
1860.

SIR,

I AM directed by the Poor Law Board to acknowledge the receipt of your letter of the _____ in which you forward to them a copy of a resolution passed by the Guardians of the Union on the subject of the Order of the Board of the 23d of August last relating to the religious instruction of orphan children in Workhouses.

The Order above referred to was framed with the view of remedying an omission which was found to exist in the letter of the 19th section of the statute 4 & 5 Will. 4. c. 76., by placing orphan children who had no godfathers and godmothers in the same position as the other children referred to in that section.

The Board have, by Article 2. of the Order in question, merely directed the continued observance of their usual practice in respect of children of a supposed age and intelligence to decide for themselves as to the religion in which they might desire to be educated.

It has hitherto been the practice of the Board to direct an inspector to examine any child so circumstanced in the presence of the Guardians.

In adopting this course the Board have been mainly actuated by the desire of enabling the Guardians to be fully informed of the circumstances of each particular case which may arise, without imposing upon them the necessity of finally deciding upon a question which they might wish to have determined by another authority.

It will be the duty of the Master under Article 3. of the Order to notify to the Guardians the case of any inmate falling within the provisions of the Article ; and the Guardians may then in the exercise of their discretion give such directions as may appear to them necessary, bearing in mind the spirit of the 19th section of the 4th and 5th Will. IV. c. 76. and the order of the 23d of August, which may be regarded as supplemental to the section in question.

The Guardians will observe that the Order does not impose any compulsory obligation or duty upon them, that it is permissive in its form and suggestive only of the adoption of a similar line of conduct towards orphan children who have no known or ascertained godfathers and godmothers, to that adopted towards other children differently circumstanced.

Under these circumstances the Poor Law Board are satisfied that the Guardians will, upon further consideration, be of opinion that the Order contains no provision opposed to the spirit of toleration upon which they have hitherto acted, or which is calculated to impose any larger amount of additional trouble upon them in the local administration of the law.

I am, &c.

C. GILPIN,
Secretary.

No. 3.

QUALIFICATION OF MEDICAL OFFICERS. — GENERAL ORDER of the POOR LAW BOARD.

To the GUARDIANS of the POOR of the several UNIONS named in the Schedules hereunto annexed ;—

To the Clerk or Clerks to the Justices of the Petty Sessions held for the Division or Divisions in which the said several Unions are respectively situate ;—

And to all others whom it may concern.

WHEREAS, by a General Order, bearing date the Twenty-fourth day of July One thousand eight hundred and forty-seven, addressed to the several Unions named in the First Schedule hereunto annexed, and by divers other Orders addressed to the several Unions named in the Second Schedule hereunto annexed, the Poor Law Commissioners and Poor Law Board respectively did prescribe the qualification for the office of Medical Officer in such Unions ;

And whereas by “the Medical Act of 1858” it has been provided, that every person registered under that Act shall be entitled, according to his qualification or qualifications, to practise Medicine or Surgery, or Medicine and Surgery, as the case may be, in any part of Her Majesty’s Dominions ;

And whereas by the said Act it was also provided, that after the First day of January One thousand eight hundred and fifty-nine, which time was extended by an Act of the 22nd Vict. c. 21. to the First day of July last, no person should hold any appointment as a Physician, Surgeon, or other Medical Officer, in any House of Industry, Parochial or Union Workhouse or Poorhouse, Parish, Union, or other public Establishment, Body, or Institution, unless he be registered under the said Medical Act ;

And whereas it is expedient that the regulations relating to the qualification for the office of Medical Officer in the Unions aforesaid should be altered for the future ;

Now therefore, We, the Poor Law Board, acting in pursuance of the powers given in and by the Statutes in that behalf made and provided, hereby rescind, as regards every appointment to be made after the First day of March next, so much of any orders and regulations issued to the Unions specified in the Schedules aforesaid as prescribes the qualification for the office of the Medical Officers thereof.

And We hereby Order as follows :

Art. I. After the said First day of March next, no person shall be qualified to be appointed to the office of Medical Officer under any of the Orders above referred to, unless he shall be registered as aforesaid, and shall be qualified by law to practise both Medicine and Surgery in England and Wales, such qualification being established by the production to the Board of Guardians of a Diploma, Certificate of a Degree, Licence, or other Instrument granted or issued by competent legal authority, in Great Britain or Ireland, testifying to the medical or surgical, or medical and surgical, qualification or qualifications of the Candidate for such office.

Art. II. Evidence that any Candidate was in practice as an Apothecary on the First day of August, One thousand eight hundred and fifteen, shall be taken to be equivalent to a Certificate to practise from the Society of Apothecaries of London.

Art. III. Any person being registered as aforesaid, who shall possess a Warrant or Commission as Surgeon or Assistant Surgeon in Her Majesty's Navy, or as Surgeon or Assistant Surgeon in the service of the Honourable East India Company, dated previous to the First day of August One thousand eight hundred and twenty-six, shall be qualified to be appointed to the office of Medical Officer as aforesaid.

Art. IV. Nothing herein contained shall apply to the regulations contained in the General Order of this Board, bearing date the Twenty-fifth day of May, One thousand eight hundred and fifty-seven, which relate to the appointment or employment in special cases of persons not fully qualified.

QUALIFICATION OF MEDICAL OFFICERS.—CIRCULAR LETTER from the POOR LAW BOARD to BOARDS of GUARDIANS on the preceding Order.

*Poor Law Board, Whitehall, S.W.,
3d January 1860.*

SIR,

I AM directed by the Poor Law Board to transmit to the Guardians a copy of a General Order which they have issued relative to the qualification of Medical Officers to be hereafter appointed by the Guardians.

The full qualification which has hitherto been required by this Board for such officers has consisted of a competent knowledge of medicine and surgery, and the legal capacity to exercise both those branches of Medical science in England.

The then existing law did not enable any person to practise medicine in England, who did not possess a diploma or licence conferred upon him by some public constituted authority of that country, and consequently the qualification for Medical Officers was specially limited in the General Consolidated Order, in regard to medicine, in the manner prescribed in that Order.

But the alteration in the law effected by "the Medical Act of 1858" has removed the previous restrictions upon persons possessed of qualifications emanating from authorities out of England, and has enabled the persons registered under that Act to practise, according to their respective qualifications, medicine or surgery, or medicine and surgery, in any part of Her Majesty's dominions.

The Board have therefore deemed it advisable to modify the provisions of the General Consolidated Order, and to enable any person who can establish his qualification to practise both medicine and surgery by the production of proper testimonials, issued by competent legal authority in any part of the United Kingdom, to be a candidate for the office of Medical Officer in the Unions to which the Order is directed.

The terms of the new Order appear to the Board to be sufficiently explicit in themselves to render any detailed explanation unnecessary. The Board think, however, that it will be convenient if they point out to the Guardians the nature of the testimonials which may be submitted to them, and what qualification will be established by such testimonials.

The following list will give the best information which the Board at present possess on the subject :—

Authority granting the Qualification.	Nature of Qualification.
The Royal College of Physicians of London - -	Licence in Medicine.
The Royal College of Physicians of Edinburgh - -	Licence in Medicine.
The Royal College of Surgeons of England - -	Licence in Surgery.
The Royal College of Surgeons of Edinburgh - -	Licence in Surgery.
The Faculty of Physicians and Surgeons of Glasgow	Licence in Surgery.
The Royal College of Surgeons of Ireland - -	Licence in Surgery.
The Society of Apothecaries, London - -	Licence in Medicine.
The University of London - - - -	Degree in Medicine.
The University of Edinburgh - - - -	Degree in Medicine.
The University of Oxford - - - -	Degree in Medicine.
The University of Cambridge - - - -	Degree in Medicine.
The University of Glasgow - - - -	Degree in Medicine.
	Degree or Licence in Surgery.
The University and King's College, Aberdeen -	Degree in Medicine.
The Marischal College and University, Aberdeen -	Degree in Medicine.

The Board are aware that this List is not complete ; but they have no adequate information at present as to the nature of the diplomas, degrees, or licences granted by any other Bodies than those just specified. They wish the Guardians, however, to bear in mind that the provisions of the Order are general, and include all diplomas, degrees, or licences “granted or issued by competent legal authority in Great Britain and Ireland,” and they will readily afford the best advice in their power to the Guardians, in any case in which a candidate for the Office of Medical Officer may submit to them testimonials of his qualification to practise medicine or surgery, emanating from any body not enumerated in this Circular.

In this Order the Board have only provided for the complete qualification of the Medical Officer ; and any special cases which may occasionally occur where a fully qualified candidate cannot be obtained must be provided for by the Guardians under the provisions of the General Order bearing date the 25th of May 1857.

It will be observed that the Order will only operate in respect of appointments to be made after the First of March next, and that it does not interfere with the registration of the Officer, which is an additional requisite imposed by the above-mentioned Medical Act of 1858.

I am, &c.

To

The Clerk to the Guardians.

RATING OF TITHES.—CIRCULAR LETTER from the POOR LAW BOARD to the OVERSEERS OF THE POOR.

*Poor Law Board, Whitehall, S.W.,
9th May 1859.*

GENTLEMEN,

I AM directed by the Poor Law Board to advert to the Circular Letter which they issued, on the 4th of September last, on the subject of the mode of rating the tithe rentcharge, regard being had to the decision of the Court of Queen's Bench in the cases of “Q. v. Goodchild,” “Q. v. Lamb,” and “Q. v. Hawkins;” and to state that certain representations having been made to them on the subject of that Circular, they have deemed it advisable to submit it to the consideration of the Law Officers of the Crown, and Mr. Tomlinson, for their opinion.

The Board, having received their opinion upon the Circular, desire to substitute the following observations, in the place of their former communications, for your future guidance in assessing the tithe rentcharge.

It is necessary for you to determine, in the first place, what is *the gross estimated rental of the tithe rentcharge*. As the value of this hereditament depends upon the average prices of corn, and therefore varies from year to year, you must ascertain the amount of the rentcharge as settled for the current year, and from it you must calculate the gross estimated rental.

The opinion of counsel above mentioned, in regard to the term “gross estimated rental” is as follows :—

“We understand by ‘gross estimated rental,’ mentioned in the
“schedule to the Parochial Assessment Act, the rent at which the
“property might be expected to be let free of tenant's rates and
“taxes and tithe commutation rentcharge, the tenant taking
“these burthens upon himself, and we suppose that in practice the
“column is usually filled up, so far as regards corporeal heredita-

“ments, with figures expressing or approximating to the conventional
 “or rack rent, on a tenancy from year to year. After making the
 “deduction therefrom of average repairs, &c., the rateable value of
 “such property is arrived at.”

They then proceed as follows with regard to the tithe rentcharge :—

“Applying the liberal analogy prescribed by the judgment in the
 “cases referred to, to incorporeal hereditaments, it appears to us
 “to be inaccurate, where the gross rental of other property is
 “stated in the mode which we have supposed, to treat the amount
 “of the annual rentcharge as the gross estimated rental, and
 “that the figure in the column of ‘gross estimated rental’ should be
 “the amount at which the rentcharge might be let to a tenant,
 “taking upon himself the tenant’s taxes, and all the risks of losses,
 “law expenses, &c. :” and they add—“In fairness to the owner of
 “the tithe rentcharge, we think that his gross rental ought to
 “be stated in a manner analogous to that in which the gross rental
 “of corporeal hereditaments is stated in the same assessment.”

In accordance with the last observation, the Board recommend that in any parish in which, as regards other rateable property, a deduction on account of tenants’ rates and taxes and tithe commutation rentcharge is made previously to filling up the “gross estimated rental” column, an analogous deduction should be made in filling up the gross estimated rental column for the tithe rentcharge. It will, therefore, be right in such cases to deduct at this stage,—

1st. The tenant’s rates and taxes imposed upon the tithe rentcharge, and amongst them the tenant’s property tax, that is, the tax assessed under Schedule B. to the first section of the Income Tax Act (5 & 6 Vict. c. 35.) But the land tax is not to be deducted, nor the sewers rate when it is (as it is generally) a landlord’s tax.

2ndly. All ecclesiastical dues which are payable in respect of the tithe rentcharge—such are synodals, procurations, first fruits and tenths. As regards the last two items, however—namely, first fruits and tenths—inasmuch as where they are paid, they are payable out of the whole of the annual profits of the benefice, a proportionate part only is to be deducted from the annual value of the tithe rentcharge.

3rdly. The cost of collection, which should include the costs of enforcing payment by legal process, and an allowance in respect of the losses which occur by the ultimate nonpayment of the tithe rentcharge. The allowance to be made on the two last-named heads must be estimated by a per-centage, ascertained on the average of a few years taken next before the rate in the particular parish is made.

4thly. As regards the allowance on account of curate’s salary (where it is allowable as a deduction), counsel observe as follows :—

“There may be a doubt whether curates’ salaries, where allowable
 “as a deduction, should be deducted *before* the gross rental is stated,
 “or *afterwards*. According to analogy we are inclined to think
 “that they should be first deducted, and that the gross rental is
 “the rent receivable from a tenant, minus the necessary curates’
 “stipends.”

With reference to the subject of allowance on account of curates’ salaries, and the general head of “Expenses,” for which a deduction is to be made in dealing with the cases above referred to, the Court of Queen’s Bench considered two subjects. One was a claim made by the incumbent in respect of the value of his own personal labour and services. The Court decided that no deduction could be allowed upon this head. The second was a claim for the salary of the curate. Upon this claim no

universal rule was laid down, but the Court decided that in some cases the salary is not, while in others it is, to be allowed. It is *not* to be allowed where the curate is merely a substitute for the incumbent, as “where he is non-resident, or, being resident, from sickness, infirmity, or any less creditable cause, does not perform his own duty personally, but employs another person instead.” It is to be allowed “where from the vast size or population of the parish one man’s labour is entirely insufficient for the duties necessarily to be discharged by the incumbent.”

Where the bishop of the diocese has required, under the statutes giving him the authority, the appointment of a stipendiary curate, and the incumbent performing his duty employs a curate in obedience to such requisition, an allowance is, according to the judgment of the Court, to be made in such case.

So, also, the Court held, that in cases where (the bishop not being legally empowered, or not being called upon to interfere,) the incumbent from a sense of duty appoints a curate, himself devoting all his own time and attention to his cure, a reasonable allowance is to be made in respect of the curate’s stipend.

These rules you must apply in your parish according to the particular circumstances of it. You will readily learn the causes which lead to the employment of the curate, and you must determine how far the curate is in fact a substitute for the incumbent, or an assistant to aid him in the discharge of those duties to which he duly applies his own time and labour.

It was sought, in the argument upon the cases above mentioned, before the Court of Queen’s Bench to obtain an additional allowance in analogy to the profit which is supposed to be allowed in the valuation of the ordinary occupation of farming lands, or the interest which is presumed to be made by a lessee of property which he takes it on a lease. Although the Court held that the owner of the tithe rentcharge is not necessarily entitled to any such deduction in addition to the deductions formerly allowed, the Board consider that it will be best that they should give the actual words of the judgment as pronounced upon this part of the case :—

“The principle, therefore, on which we think the assessment should be made is, that the rentcharge is to be assessed like all other property, according to what it might reasonably be expected to let for from year to year; and in deciding upon such amount the nature of the property is to be regarded, and it is to be considered whether a profit can be looked to or expected, as in the case of farms; and whether in each particular case anything over the expenses for collecting, and the allowances for bad debts and law expenses, would be necessary to induce a tenant to take. In each particular case of the kind this question must be for the persons making the rate, and for the sessions on appeal. It may be that a tenant might willingly take in some cases for less than the amount which, in addition to an allowance for collection, would secure him positively against all risk, bad debts, and law expenses, as the profit of collection itself might be sufficiently remunerative to the party taking, and the other losses might be treated as contingent. It may be that in other cases persons would hesitate to take, with the allowances referred to, without something additional in the way of profits; and we think that this is a question of fact, to be determined according to the circumstances of each particular case, the rule in every case being, that the amount must be ascertained as that at which a tenant might reasonably be expected to take from year to year.”

The gross estimated rental having thus been ascertained by making the deductions above adverted to from the annual amount of the tithe rent-charge, there remains a further deduction to be made in order to arrive at the net rateable value, viz.—*in respect of the annual cost of the repairs of the chancel*, which the Poor Law Commissioners, in their letter of September 1840, stated to be a subject of deduction, and upon which their opinion has not been questioned.

But the Board must again point out that the principle to be kept in view is the maintenance of uniformity and equality as regards the assessment of all the property in a parish. When, therefore, a different rule from that above stated, and one in accordance with the instructional letter issued by the Poor Law Commissioners in June 1837, and with the form of the surveyors' contract in general use, is acted upon in any parish for ascertaining the gross estimated rental of all the property therein, the annual value of the tithe rentcharge appears to constitute the proper measure of the gross estimated rental.

One other subject also came under consideration in the cases referred to, which the Court did not then so completely decide as to leave it altogether free from question. In some parishes districts have been created out of them, in others several parts have been consolidated into chapelries, and in others chapels of ease exist. In these cases the incumbent of the parish frequently pays towards the support of the ministers. His payment may be made voluntarily, and out of his general income. If this be the case in your parish you will not be called upon to allow him any deduction in respect of such payment. But if, under any of the various statutes which apply to the subject, any portion of the tithe rentcharge has been duly assigned to the minister of the new district, or virtually separated from the residue as part of the endowment of such district, the Court stated that the incumbent of the parish is not to be rated in respect of such amount, because it would not be beneficially in his occupation.

The Court added, that "if any one would be rateable for this, it would be not the incumbent of the Parish but the minister of the district church." But the Board have to observe that in this term the Court have decided that where the incumbent of a parish had covenanted to pay a stipend to the minister of a district created under 19 & 20 Vict. c. 104., and had charged the same upon the tithe rentcharge, the minister was not liable to be assessed to the poor rate in respect of such stipend.—See "*Reg. v. Frend*," 33, Law Times, p. 89.

In conclusion, the Board consider that in whatever manner the gross estimated rental be calculated, the net rateable value must be obtained by deducting, from the annual value of the rentcharge for the current year, the following items :—

- A. The annual amount chargeable on the rateable value for tenants' rates and taxes.
- B. An annual average per-centage—
 - (a) for the costs of collection,
 - (b) for legal process, and
 - (c) for losses.
- C. The proportionate charge for the ecclesiastical dues and fees, and an average sum for the annual cost of repairing the chancel.
- D. A reasonable sum for a curate's salary, if in your parish a curate is employed to supply necessary aid to the minister and not as his substitute.

E. The amount payable to the minister of a district, if the parish has been legally divided and the tithes have been actually or virtually severed, and an amount charged upon the living in behalf of such minister.

F. A reasonable sum for a tenant's profit, if, regard being had to the observations upon this point already set forth above, such additional allowance is required to be made in your parish.

The Poor Law Commissioners also stated in their letter of September 1840 that they did not consider that the repayments of the loans advanced to incumbents by the Governors of Queen Anne's Bounty, or other parties, for the rebuilding of residences, could be allowed in estimating the rateable value of the tithe rentcharge. This opinion the Court confirmed.

**PAYMENT OF DEBTS INCURRED BY BOARDS OF GUARDIANS.—CIRCULAR
LETTER from the POOR LAW BOARD to BOARDS OF GUARDIANS.**

*Poor Law Board, Whitehall, S.W.,
12th September 1859.*

SIR,

I AM directed by the Poor Law Board to enclose for your information a copy of the Act (22 & 23 Vict. cap. 49.) which was passed in the last session of Parliament, "to provide for the payment of debts " incurred by Boards of Guardians in Unions and Parishes, and Boards " of Management in School Districts."

I am, &c.

To
The Clerk to the Guardians.

H. FLEMING,
Secretary.

Anno Vicesimo Secundo & Vicesimo Tertio

VICTORIÆ REGINÆ.

CAP. XLIX.

An Act to provide for the Payment of Debts incurred by Boards of Guardians in Unions and Parishes and Boards of Management in School Districts. [13th August 1859.]

WHEREAS it is expedient to define and limit the period during which any debt hereafter incurred by guardians of unions or parishes or by district boards of management in the administration of the laws for the relief of the poor may be paid, and to make provision, in respect of debts heretofore lawfully incurred by them, for payment of the same: Be it therefore enacted by the Queen's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present parliament assembled, and by the authority of the same, as follows:

I. With respect to any debt, claim, or demand which may, after the passing of this Act, be lawfully incurred by or become due from the guardians of any union or parish, or the board of management of any school or asylum district, such debt, claim, or demand shall be paid within the half year in which the same shall have been incurred or become due, or within three months after the expiration of such half year, but not afterwards, the commencement of such half year to be reckoned from the time when the last half year's account shall or ought to have been closed according to the order of the Poor Law Commissioners or Poor Law Board: Provided that the Poor Law Board, by their order, may, if they see fit, extend the time within which such payment shall be made for a period not exceeding twelve months after the date of such debt, claim, or demand.

II. With respect to any debt, claim, or demand which may have been lawfully incurred by any such guardians or board of management or on their account before the passing of this Act, they may, if they think proper, pay within twelve months after the passing of this Act, out of the funds in their possession, any such debt, claim, or demand which may have been so incurred or have become due within two years before the date

of this Act, and may, within the said period of twelve months, make provision for the payment of any debt, claim, or demand lawfully incurred as aforesaid which shall have become due from them at some time beyond two years but not beyond six years from such date in full at once, or by equal annual instalments, not exceeding five, if the Poor Law Board, after open and public investigation, during which counsel or solicitors may appear and witnesses may be examined on both sides, when the same shall be required by any ratepayer of the union, parish, or district, shall be satisfied that no fraud, collusion, or neglect of the general rules of the Poor Law Board respecting the contraction or discharge of such debt, claim, or demand have been committed by the party to whom such claim or demand is alleged to be due, and that such party has not been accessory to any fraud on such guardians or board of management, and shall give their consent in manner aforesaid to such payment; and such guardians or board respectively shall charge every such payment to the account to which the same should have been charged if the payment had been made in due time; and the president or secretary of the Poor Law Board shall, within one calendar month after the expiration of such period of twelve months as aforesaid, if parliament be then sitting, or if not, then within one calendar month after the next meeting thereof, lay or cause to be laid before both houses of parliament a return of all such payments as shall have been made or authorized under the power lastly herein-before contained.

III. Where any sum shall have been or shall be borrowed by any guardians or managers, and the debt shall have been or shall be charged by the said guardians upon the poor rates, under the authority of any statute, and the same shall be made payable on a day certain, the time of limitation prescribed by this Act for payment of debts shall commence on that day; where it shall not have been made payable on any day certain, then on the expiration of twelve months from the day when the money was advanced; and in the case of any debt repayable by instalments each instalment shall be payable within one year next after the day when the same shall fall due, unless the said Board shall in any of the cases provided for in this section allow an extension of the time for the payment not exceeding six months; and the interest payable in every case hereby provided for shall be payable within the like times only as the principal.

IV. If any person claiming any debt or demand shall have commenced or shall hereafter commence proceedings in any court of law or equity, or before any justice or other competent authority, within the time herein-before limited, or within the time to which the Poor Law Board may grant extension, and shall with due diligence prosecute such proceedings to judgment or other final settlement of the question, such judgment shall be satisfied by the guardians or managers against whom or against whose officer the same may be brought, notwithstanding that such judgment may be recovered or such final settlement arrived at after the expiration of the period herein-before provided, and all proceedings taken by mandamus or otherwise for the enforcing of such judgment without delay shall be deemed to be within the operation of this section.

V. Where the guardians or managers shall be engaged in a suit, action, or proceedings in any court, they shall not be required by any rule of law or provision herein contained to pay the bill of costs of any solicitor or attorney retained by them for the purpose thereof until the final determination of such suit or proceeding, or until he shall cease to be so retained by or for them therein; but the bill of costs of such solicitor or attorney shall be duly taxed and paid within the term of one year next after such final determination of the said suit, proceeding, or retainer, and not afterwards, unless the Poor Law Board shall authorize an extension of time not exceeding six months; provided that if the said solicitor or attorney take proceedings for the recovery of his bill within such time or the extension thereof, he shall in such case have the same right to be paid as in section four; provided also, that nothing herein contained shall prevent the guardians or managers from paying money at any time on account of the suit or proceeding.

VI. No call or order for contribution made by any guardians, nor any poor rate made to meet such call or order, shall be deemed to be illegal on the ground that the same is made to provide for any debt, claim, or demand, the payment whereof is authorized by this Act, or on the ground that the said call or order for contribution includes a balance due from any parish or parishes at the time when the half-yearly accounts are made up and balanced as aforesaid: Provided always, that when the fund out of which any such debt, claim, or demand should have been discharged shall have been already paid by any parish to the board of guardians of any union, and shall not have been applied for that purpose, any funds which may be required to be again contributed to discharge such debt, claim, or demand shall be levied on each parish in the union in proportion to the rateable value of each such parish.

VII. The words used in this Act shall be construed in like manner as the same words are directed to be construed by the Act of the fourth and fifth years of King William the Fourth, chapter seventy-six, or any subsequent Act amending or explaining the same.

No. 7.

POOR RATE RETURN.—REMARKS prefixed to the Return made to Parliament of the Poor Rates levied and expended for the Year ended at Lady-day 1859. [No. 208. (D.) Sess. 1859.]

The present Return is the *fifty-second* annual publication of the **Series of Poor Rate Returns.**

This Return is, in respect of the number of places which it represents, the most complete of the Statistics of pauperism ; for in it the sums levied and expended as Poor Rates throughout the whole of England and Wales are exhibited ; excepting only *five* small Parishes, which are stated by the overseers either to have “No poor,” or to make no levy “yet.” **Parishes included in the Return.**

The number of Parishes maintaining, or liable to maintain their own poor, is printed in the following Table, which relates to the parochial year under consideration :—

Authority.	Description,	Number of Parishes.
Poor Law Amendment Act -	588 unions - - - -	14,052
	22 single parishes - - -	22
Local Acts (various) - -	21 unions - - - -	320
	15 single parishes - - -	15
Gilbert's Act (22 Geo. 3. c. 83) -	12 unions - - - -	199
	2 single parishes - - -	2
43d Elizabeth, cap. 2. - -	88 parishes (including the Scilly Islands, returned as <i>five</i> parishes.)	88
	TOTAL - - - -	14,698

England and Wales, is thus represented, in relation to the present Population Poor Rate Return :—

	Population in 1851.
14,693 Parishes returned - - - -	17,906,837
5 Parishes (no poor ; or no levy) - - -	2,733
Extra-parochial places - - - -	18,039
TOTAL - - - -	17,927,609

The “Extra-parochial” places were not, heretofore, liable to maintain their own poor ; but they are now becoming Parishes, under the operation of 20 Vict. c. 19. (Extra-parochial Places Act.) The ultimate addition, however, which this will make to the existing Parishes is not at present known. **Parochial-ization.**

The net annual value of property assessed to the Poor's Rate has been returned in respect of four parochial years. “The Gross Esti- **Valuations to the Poor Rates.**

mated Rental " is also returned for the last of these years ; and it is the first time this information has been obtained.

* The details of these Valuations will be found in the following papers, printed by order of the House of Commons, viz., No. 235 " Real Property," 1842 ; No. 735 " Poor Rates, &c.," 1848 ; No. 539 " Poor Rate Assessment," 1852 ; No. 63 " Population, &c. of Parishes," 1858 ; and No. 251 " Population, Inhabited Houses, &c.," 1859.

It is satisfactory to observe, that in the course of fifteen years, from 1841 to 1856, the net annnal value of rateable property has increased 9,300,241*l.*, or 14'9 per cent. The yearly rate of increase has been 620,016*l.*, or 1 per cent., very nearly. The rateable value, according to this statement, is 16½ per cent. below the " Gross Estimated Rental."

Receipts and Expenditure in 1857, 1858, and 1859.

The Returns, in a contracted shape, are exhibited in the next Table, for the last three years, with the rate per head, on the estimated population, of the amount levied as Poor's Rate, and of the amount expended in relief :—

Years ended at Lady-day.	RECEIPTS.			EXPENDITURE.			RATE per HEAD.

It was pointed out in the previous return that, while the cost of relief had been falling, the expenditure for "all other purposes" had been rising ; a similar remark is applicable to the present case, as it will be observed that between 1859 and 1857 the *decrease* on the former item was 340,067*l.* ; the *increase* on the latter, 150,313*l.*

Large proportion of expenditure unconnected with relief.

Four-fifths of the expenditure, described in the last Table as for " All other Purposes," consists of payments which have no connexion whatever with relief to the poor. This part of the Poor Rate Expenditure, which is foreign to the object originally contemplated in the enactment of the rate, has greatly increased since the passing of the Poor Law Amendment Act in 1834, in consequence of the imposition of new and the augmentation of old charges. The next Table exhibits, separately, all the charges referred to, so far as the returns permit. The heaviest item is the disbursement in respect of the

“County, Hundred, or Borough Rate, or Police Rate.” The charge under these heads has nearly *trebled* in twenty-five years.

In 1859 more than *one fourth* of the whole Poor Rates levied was expended for purposes unconnected with relief to the poor. Besides the charges here shown, there are some others which are not discriminated, such as the expenses incurred for sanitary purposes, and the cost for providing new burial grounds.

Principal Charges which constitute Relief to the Poor.

The principal heads of expenditure, which constitute "Relief to the Poor," are shown in the next Table, together with the average price of wheat for the three years. The sums expended for the maintenance of pauper lunatics in asylums and licensed houses was separately returned for 1856-57, for the first time, as 377,659*l.*; in 1857-58 it had risen to 397,826*l.*; and in 1858-59 it had further increased to 413,357*l.*

The column in the Return, which succeeds that of "Total Expenditure," contains the expense of *Medical Relief* only; this consists of salaries to the Medical Officers; extra Medical Fees paid to them under the General Consolidated Order; also, the cost (if any) of medical and surgical appliances, and drugs. The sums in this column are not additional to those given in Column 4. § A, of the Return; because, the various items of Medical Relief are included in sub-columns (e) or (f), as forming a portion of the "Relief to the Poor:" the "Medical Relief" is printed separately, as indicating an important and special subject of Poor Law administration.

The sums expended under this head during the three last years were as follows :

For 1856-57	-	-	-	-	£ 231,623
1857-58	-	-	-	-	230,597
1858-59	-	-	-	-	233,124

Twenty-six Unions and single Parishes, chiefly Metropolitan, are combined into School Districts; the contributions which each Union makes to the treasurer of its district are included in the other items of relief, and, as such, entered in the proper columns of the Poor Rate Return; this, then, like the Medical Relief, does not represent any additional expenditure, having been heretofore properly included in the amounts printed opposite to the respective Unions concerned, at page 24, et seq.*

* See Parliamentary Paper.

The sums contributed by each Union to the School District ; and, the sums expended by each district and for each Union during the parochial year 1858-59, are contained in the subjoined Table :—

IN-MAINTENANCE AND OUT-RELIEF.—REMARKS prefixed to Return made to Parliament of In-maintenance and Out-relief for the Half Year ended Lady-day 1859. [No. 98 (c. 1.) Sess. 1858.]

THE Returns of In-maintenance and Out-door Relief, printed at pp. 18 to 60*, have been received from 645 Unions and single Parishes under Boards of Guardians; but two of that number, namely, Shrewsbury, and Montgomery and Pool, give the cost of In-maintenance only.

Number of Unions returned.

The amount expended in the 645 Unions and Parishes during the half-year was, for—

In-maintenance.	Out-door Relief.	Total.
£ 485,756	£ 1,427,624	£ 1,913,380

The population of the places referred to was 17,669,641, according to the Census of 1851; the entire population of England and Wales then being 17,927,609.

The sum expended for irremovable paupers can be shown for 608 Unions and Single Parishes only, as the other places keep no separate account of their disbursements in respect of this class of poor.

Irremovable Paupers.

The 608 Unions and Parishes contain about 15-17ths of the entire population of the Kingdom; the sum expended in them for relief during the half-year was, in respect of—

	In-maintenance.	Out-door Relief.	TOTAL.
	£	£	£
Irremovable Paupers -	63,666	332,060	395,726
Other Paupers -	318,966	994,628	1,313,594
TOTAL - £	382,632	1,326,688	1,709,320

The cost of relief to the Irremovable Paupers was 30·1 per cent. on the cost of relief to the other Paupers during the half-year; but during the half-year ended at Lady-day 1858, the ratio was 30·8 per cent.; so that the proportion has fallen 0·7 per cent. during that period.

The following Table is a comparative statement of the Expenditure for the half years ended at Lady-day 1858 and 1859 in 643 Unions and Single Parishes.

relieved.

The paupers relieved on the 1st January, that is, on a day which falls on the middle of the Lady-day half year, are taken as a fair representation of the average number relieved during the time which elapses between the 29th September and 25th March.

1st day of January.	Unions.	Number of Paupers in receipt of Relief.	Decrease, as compared with 1858.	Decrease per Cent.	Unions.	Number of Adult Able-bodied Paupers in receipt of Relief.	Decrease, as compared with 1858.	Decrease per Cent.

1859	643	867,349	86,454	9·0	642	137,418	33,964	19·8

The cost of In-maintenance and Out-door Relief is about 72 per cent. of the entire expense of "Relief to the Poor:" the other items of relief are, "Cost of Lunatics in Asylums;" "Workhouse Loans and Interest;" Salaries and Rations of Officers," and "other expenses immediately connected with relief."

IN-MAINTENANCE AND OUT-RELIEF.—REMARKS prefixed to the Return made to Parliament of In-maintenance and Out-relief for the Half Year ended Michaelmas 1859. [No. 208 (c.) Session 1859.]

Number of Unions returned.

THE Returns of In-maintenance and Out-door Relief, printed at pp. 18-60*, have been received from 646 Unions and single Parishes under Boards of Guardians; but two of that number, namely, Shrewsbury, and Montgomery and Pool, give the cost of In-maintenance only.

The amount expended in the 646 Unions and Parishes during the half year was, for—

In-maintenance.		Out-door Relief.		Total.
£ 431,144	- -	£ 1,397,420	- -	£ 1,828,564

The population of the places referred to was 17,670,006, according to the Census of 1851; the entire population of England and Wales then being 17,927,609.

Irremovable Paupers.

The sum expended for Irremovable Paupers, can be shown for 608 Unions and single Parishes only; as the other places keep no separate account of their disbursements in respect of this class of poor.

The 608 Unions and Parishes contain about 15-17ths of the entire population of the Kingdom; the sum expended in them for relief during the half year was, in respect of—

	In-Maintenance.	Out-Door Relief.	TOTAL.
	£	£	£
Irremovable Paupers -	57,995	324,142	382,137
Other Paupers - -	279,715	970,321	1,250,036
TOTAL -	337,710	1,294,463	1,632,173

The cost of relief to the Irremovable Paupers was 30·1 per cent. on the cost of relief to the other Paupers during the half year; but during the half year ended at Michaelmas 1858, the ratio was 30·5 per cent.; so that the proportion has fallen 0·4 per cent. during that period.

Expenditure, Michaelmas half years 1858 and 1859.

The following Table is a comparative statement of the expenditure for the half years ended at Michaelmas 1858 and 1859, in 646 Unions and single Parishes.

Eleventh
Table.

The number of paupers of all classes in receipt of relief on the 1st of July 1858 and 1859, with the decrease, is exhibited in the next Table.

Twelfth
Table.

The number of adult able-bodied paupers on the 1st July 1858 and 1859 is shown by the next Table for 645 Unions; St. Pancras being excluded from this comparison by reason of its return not distinguishing the out-door able-bodied from the other classes of Paupers.

TABLE XII.

It is necessary to observe, with reference to the small decrease recorded in the two last Tables, that many unions included in their statements of the number of paupers relieved on the 1st July 1859, certain classes of paupers which ought to have been included in previous returns, namely, pauper lunatics in asylums and licensed houses, paupers receiving medical relief only, and non-resident paupers.

† The Return from St. Pancras does not discriminate the number of Able-bodied Out-door Paupers relieved; it is therefore omitted from this Table.

‡ The term "Adult" has, in the Tables of Pauperism, been always applied to Paupers aged 16 years and upwards.

* The increase in the number of Insane Paupers, recorded in the Out-door portion of this Summary on the 1st July 1859, is due to the increase in Lunatic Asylums being the result of the transfer of certain classes of paupers which ought to have been included in previous Returns.

† It is necessary to observe, with reference to the small decrease in the total number of Paupers in July 1859, that on the 1st July 1859 certain classes of paupers which ought to have been included in previous Returns were not included.

‡ The figures placed in this column represent the number of persons relieved, both in-door and out-door, including settled paupers whose relief had been transferred from one parish to another.

Notes.—The corresponding table to this, but with a more detailed classification, will be found at page 193, mentioning and

† January 1859, arises from the circumstance of those persons chargeable to the Poor Rates and maintained fully returned for the first time.
as compared with July 1858, that many unions included in their statements of the number of paupers relieved pauper lunatics in asylums and licensed houses, paupers receiving medical relief only, and non-resident paupers. the 1st January (or July), and therefore entered in the in-door and out-door totals on that day; also those non-accounts of the unions to which it was chargeable.
of the Eleventh Annual Report, where the particulars are given in reference to twenty-one periods commencing January 1849.

No. 30.

**WEEKLY RETURNS OF PAUPERISM FOR THE YEAR
ENDING JANUARY 1860, AND FOR THE CORRE-
SPONDING WEEKS OF THE PREVIOUS YEAR.**
[No. 98. A. XIII. and XIV. Sess. 1858. and No. 208. A. to
A. IX. Sess. 1859.]

**MEMORANDUM as to the ARRANGEMENT of the WEEKLY RETURNS
of PAUPERISM.**

THE Returns of the Number of Paupers relieved on the *last day* of each Week do not include the "Lunatic Paupers in Asylums and Licensed Houses," nor the number of "Vagrants" relieved. These classes form only a small portion of the entire pauperism of the country. According to the latest Returns (1st January 1859), the number contained in the two classes was 2·0 per cent. of the total pauperism.

The Pauper Lunatics in Asylums are not generally subject to variations in number to the same degree as the other classes of Paupers, and the number of Vagrants relieved by the Unions throughout the country has become too small to need a return so frequently as once a week. These considerations led to the exclusion of the two classes.

There are at present 14,714* parishes in England and Wales maintaining or liable to maintain their own poor: returns of pauperism are received weekly in respect of 14,428 of that number; 286 parishes, incorporated under Gilbert's Act, or still under the provisions of the 43d Elizabeth, make no return of the number of paupers which they relieve.

The Returns are arranged under eleven divisions. The Union-counties which fall under each are shown in the following view:—

I. THE METROPOLIS. 1.*Middlesex (part of). 2.*Surrey (part of). 3.*Kent (part of).	IV. EASTERN. 14. Essex. 15. Suffolk. 16. Norfolk.	VII. NORTH MIDLAND. 28. Leicester. 29. Rutland. 30. Lincoln. 31. Nottingham. 32. Derby.
II. SOUTH EASTERN. 2.*Surrey (part of). 3.*Kent (part of). 4. Sussex. 5. Southampton. 6. Berks.	V. SOUTH WESTERN. 17. Wilts. 18. Dorset. 19. Devon. 20. Cornwall. 21. Somerset.	VIII. NORTH WESTERN. 33. Chester. 34. Lancaster.
III. SOUTH MIDLAND. 1.*Middlesex (part of). 7. Hertford. 8. Buckingham. 9. Oxford. 10. Northampton. 11. Huntingdon. 12. Bedford. 13. Cambridge.	VI. WEST MIDLAND. 22. Gloucester. 23. Hereford. 24. Salop. 25. Stafford. 26. Worcester. 27. Warwick.	IX. YORK. 35. West Riding. 36. East Riding. 37. North Riding. X. NORTHERN. 38. Durham. 39. Northumberland. 40. Cumberland. 41. Westmorland. XI. WELSH. 42. Monmouth. 43. South Wales. 44. North Wales.

* Many places not heretofore liable to maintain their own poor are becoming parishes under the operation of the Extra-parochial Places Act; to what extent this will ultimately increase the number of parishes in England and Wales cannot, at present, be stated; since the publication of the Return for December 1858, 56 new parishes have been recorded here.

The following is a Tabular Statement of the Number of Unions and Parishes ; and the Area and Population ascribable to each Division ; but so far only as represented by the Weekly Returns.

**LADY-DAY QUARTER.—OBSERVATIONS AS TO THE DECREASE
OF PAUPERISM.**

The Return now published completes the Monthly Series for the parochial year ended at Lady-day 1859. The Statistics of Pauperism, given in the Memoranda prefixed to the Return of December 1858, No. 98—(A. XI. 1858), are continued here in a somewhat extended shape; in addition to the General Table for the Kingdom, two others, relating to the Manufacturing and Metropolitan Districts, are given.

The Tables therefore relate to—

1st. ENGLAND and WALES.

2d. NORTH MIDLAND, NORTH WESTERN, and YORK DIVISIONS.

3d. THE METROPOLIS.

1. In the Table of the Total Number of Paupers relieved in each consecutive week of the Lady-day quarter, printed below, it will be observed that the numbers rose after the first week of January; that they attained their maximum in the second week of February; and thence continued to fall until the termination of the quarter. The maximum week was only 2·48 per cent. above the first week of the present year; that small ratio measures the increase of pauperism due to the winter, so far as it falls within the Lady-day quarter.

The subjoined is a Comparative Table of Pauperism for the three Lady-day quarters of 1857, 1858, and 1859 respectively. Like the corresponding tabulation for the Christmas quarters this exhibits a decrease in each of its weeks. Noting the greatest decrease in each column, it will be found that in the first week of February last, there were 79,741 fewer paupers on the list than in the corresponding week of 1857; but, that in comparing the numbers with 1858, the greatest decrease fell on the second week of March, when the difference in favour of the last return was 142,425, or 14·20 per cent.

2. The great increase in pauperism, which the returns of the Poor Law Board have shown to exist during a portion of the parochial years 1856-7 and 1857-8, was mainly owing to the commercial disasters of the autumn of 1857; it is therefore of interest to compare the statistics of those divisions which bore the chief pressure; they contain the great seats of our manufacturing industries, and are included, with considerable rural districts, under the VII., VIII., and IX. divisions.

The next Table shows, that, not only have these districts recovered from the distress of 1857, but that they are somewhat better off than they were in the corresponding period of 1856. If the ratios of pauperism were calculated upon the population existing at each period, the favourable position of the manufacturing districts would be more strikingly shown. The increase of population is an element to be considered in minute estimates of pauperism, but it cannot be computed with a sufficient approach to accuracy in these localities.

3. The Metropolis has, for some time past, shown a steady diminution in pauperism ; this is particularly seen in the following Statement, where the Lady-day Quarters of 1858 and 1859 are contrasted with that of 1857. The ratios, however, are those of 1859 alone, calculated upon the data of 1857 and 1858 respectively.

MIDSUMMER QUARTER.—OBSERVATIONS AS TO THE CONTINUED DECREASE OF PAUPERISM.

The present Return completes the Monthly Series for the Quarter ended at Midsummer 1859. The four following Tables are given here in continuation of those printed in the observations prefixed to the Monthly Returns for June, September, and December 1858; and March 1859.

The Tables are—

1st. ENGLAND and WALES; the pauperism in the consecutive weeks of the quarter.

2d. ————— the comparative pauperism of the quarter.

3d. NORTH MIDLAND, NORTH WESTERN, and YORK DIVISIONS; the comparative pauperism of the quarter.

4th. THE METROPOLIS; the comparative pauperism of the quarter.

1. In the first Table, each week, compared with its predecessor, with one exception, shows a decrease in the number of paupers: 855,753 were the numbers relieved in the last week of March (Lady-day); but in the fourth week of June (Midsummer) they had fallen to 802,307, which is a decrease of 53,446, or 6·2 per cent. less at Midsummer than Lady-day. The population of the places returned was in 1851, 17,652,733; but estimating the increase of the people by the ratio which existed between 1841 and 1851, the numbers are now probably 19,500,000, which gives one person as a pauper in every 24; in other words, there is one pauper to every 23 self-supporting members of the community. This is exclusive of lunatic paupers in asylums and of vagrants; but the addition of these two classes to the total would not materially alter the proportion here given.

Fourth week - -	802,307	—	2,256

2. The next Table, like the corresponding ones published for the last Christmas and Lady-day quarters, continues to exhibit considerable diminution in the pauperism, on a comparison of 1859 with 1857 and 1858 respectively. The lowest number during the three Midsummer quarters is that entered for the last week of June 1859, namely, 802,307.

3: The following Table, embracing the principal manufacturing districts of the country, exhibits the equally satisfactory result of a decline of pauperism. There is a decrease of nearly 20,000 paupers, comparing Midsummer 1859 and 1858; but the decreases it will be observed were still greater in the earlier weeks of the quarter.

MICHAELMAS QUARTER.—OBSERVATIONS AS TO THE CONTINUED DECREASE OF PAUPERISM.

The present Return completes the Monthly Series for the quarter ended at Michaelmas 1859. The four following Tables are given here in continuation of those printed in the observations prefixed to the Monthly Returns for June, September, and December 1858 ; and March and June 1859.

The Tables are—

- 1st. ENGLAND and WALES ; the pauperism in the consecutive weeks of the quarter.
- 2d. ————— the comparative pauperism of the quarter.
- 3d. NORTH MIDLAND, NORTH WESTERN, and YORK DIVISIONS ; the comparative pauperism of the quarter.
- 4th. THE METROPOLIS ; the comparative pauperism of the quarter.

1. In the first Table each week, compared with its predecessor, shows, during the months of July and August, a decrease, and during the month of September, a slight increase in the number of paupers : 802,307 were the numbers relieved in the last week of June (Midsummer), but in the fourth week of September (Michaelmas) they had fallen to 783,465, which is a decrease of 18,842, or 2·3 per cent. less at Michaelmas than Midsummer. The population of the places returned was in 1851, 17,652,733 ; but estimating the increase of the people by the ratio which existed between 1841 and 1851 the numbers are now probably 19,500,000, which gives one person as a pauper in every 24 ; in other words, there is one pauper to every 23 self-supporting members of the community. This is exclusive of lunatic paupers in asylums and of vagrants ; but the addition of these two classes to the total would not materially alter the proportion here given.

2. The next Table, like the corresponding ones published for the last Lady-day and Midsummer Quarters, continues to exhibit considerable diminution in the Pauperism, on a comparison of 1859 with 1857 and 1858 respectively. The lowest number during the three Michaelmas quarters is that entered for the last week of August 1859, namely, 778,161.

3. The following Table, embracing the principal manufacturing districts of the country, exhibits the equally satisfactory result of a decline of pauperism. There is a decrease of 14,435 paupers, comparing Michaelmas 1859 and 1858; but the decreases, it will be observed, were still greater in the earlier weeks of the quarter.

CHRISTMAS QUARTER.—OBSERVATIONS AS TO THE CONTINUED DECREASE OF PAUPERISM.

The Return now published completes this portion of the Series for the year 1859. The four following Tables are given in continuation of those prefixed to the monthly publication for September last.

The Tables are—

- 1st. ENGLAND and WALES ; the pauperism in the consecutive weeks of the quarter.
- 2d. ————— the comparative pauperism of the quarter.
- 3d. NORTH MIDLAND, NORTH WESTERN, and YORK DIVISIONS ; the comparative pauperism of the quarter.
- 4th. THE METROPOLIS ; the comparative pauperism of the quarter.

1. In the first Table, each week is compared with the one immediately preceding it. The last week of the year is higher than the last week of the Michaelmas quarter by 43,308 paupers ; an increase is usual in the winter quarters, and is attributable to the diminution of out-door employment, in consequence of the change in the season.

2. The next Table, like the corresponding ones published for the last three quarters, continues to exhibit considerable diminution in the pauperism, on a comparison of 1859 with 1857 and 1858, respectively.

The paupers in receipt of relief on the last day of the last week of December were —

In 1857	-	-	-	-	-	936,815
„ 1858	-	-	-	-	-	857,903
„ 1859	-	-	-	-	-	826,773

The paupers in 1859, as compared with those in 1858, had decreased 31,130, or 3·63 per cent. ; but compared with 1857 they had decreased 110,042, or 11·75 per cent.

3. The third Table comprises the three divisions of England and Wales, in which the principal manufactures are carried on. Taking the returns of paupers relieved on the last day of the last week of December, the numbers were —

In 1857	-	-	-	-	-	258,330
„ 1858	-	-	-	-	-	200,343
„ 1859	-	-	-	-	-	186,401

The decrease in 1859, compared with 1858, was 13,942, or 6·96 per cent. ; but in comparison with 1857 it was 71,929, or 27·84 per cent.

4. The Metropolis still continues to exhibit decreased pauperism, on comparing the numbers with the corresponding weeks of 1857 and 1858, respectively. According to the last returns for the month of December in the three years last past, the numbers were —

In 1857	-	-	-	-	-	101,938
„ 1858	-	-	-	-	-	95,898
„ 1859	-	-	-	-	-	91,665

In 1859 the decrease in the paupers, as compared with those in 1858, was 4,233, or 4·41 per cent.; but on a comparison with 1857, the diminution was 10,273, or 10·08 per cent.

No. 82.

REMARKS ON THE RETURN OF INSANE PAUPERS, CHARGEABLE ON THE
1st JANUARY 1859. (No. 208. (E.) Sess. 1859.)Source of
Informa-
tion.

1. The Statistics of Pauper Insanity contained in this paper have been compiled from the lists of "Lunatics, Idiots, and other Persons of Unsound Mind," who were chargeable to the Poor Rates on the 1st January 1859. These lists are made out annually by the Clerks to the Guardians and transmitted to the Poor Law Board, in compliance with the 16 & 17 Vict. c. 97. s. 64., and in the form prescribed by Schedule D. of that Statute.

The particulars required by the Schedule are classed under the 15 following heads, viz. :—

- "Name."
- "Age."
- "Sex."
- "Parish to which Chargeable."
- "In a County or Borough Asylum, and what Asylum, and when sent thither."
- "In a Registered Hospital or Licensed House, and where, and when sent thither."
- "In the Workhouse."
- "In Lodgings or Boarded Out, and where and with whom, by name."
- "Residing with Relatives, and where and with whom, by name."
- "Weekly Cost of Maintenance and Clothing."
- "Whether Lunatic or Idiot."
- "Dangerous to himself or others."
- "Of Dirty Habits."
- "For what length of time supposed to be of Unsound Mind."
- "Observations."

Classes of
Insane.

2. Although the heading of the Schedule contemplates *three* classes of Insanity, by the terms "Lunatics, Idiots, and *other Persons of Unsound Mind*;" its Columns are restricted to the two first classes, namely, "Lunatic" and "Idiot." The Returns are, for the most part, made with reference by name to those two classes; but numerous instances occur, in which other terms are employed to indicate, apparently, particular modifications of Insanity.

The following names entered in the lists, under the head of "Whether Lunatic or Idiot," have been observed in the present Returns, viz. :—

Amentia.	Head Affection after Fever.	Maniac.
Cerebral Excitement.	Hypochondriac.	Maniæ Potu.
Chronic Dementia.	Hypochondriasis.	Melancholia.
Chronic Mania.	Idiot.	Mental Weakness.
Congenital Idiocy.	Idiotic Fits.	Monomania.
Delusion.	Idiotcy.	Partial Idiocy from Birth.
Demency.	Illusion.	Periodical Mania.
Dementia.	Imbecility, Congenital.	Puerperal Insanity.
Dementia after Paralysis.	Insane.	Recurrent.
Dementia with Epilepsy.	Insanity.	Recurrent Madness.
Dementia with Paralysis.	Insanity, Melancholia.	Semi-Idiot.
Epileptic.	Intermittent Insanity.	Silly.
Epileptic Idiot.	Lunatic.	Simple (from Birth).
Epileptic Mania.	Madness.	Unsound Mind.
Feeble Minded.	Mania.	Weak Intellect.
Fits.	Mania, Sub-acute.	Weak.

3. In tabulating the numbers under "Lunatic," or "Idiot," this classification has been observed. All cases of congenital insanity, under whatever name returned, have been entered as "Idiots;" all the other cases as "Lunatics;" whether the Insanity commenced at a stated age or at an "unknown" age.

Lunatic and Idiot.

4. Returns have been received from 645* Unions and Single Parishes under Boards of Guardians; the Population of these places, according to the Census of 1851, is 17,669,448; but, estimated to the 1st January 1859, it is 19,430,000. The number of Insane Paupers chargeable to the Poor Rates in those places, on that day, is shown below :—

Places re- turned.

Number of Paupers on 1st January 1859.	Whereof were Insane Paupers.	Namely :—	
		Lunatics.	Idiota.
867,543	30,318	21,432	8,886

Thus 3·50 per cent. of the pauperism, on the 1st January last, is ascribable to Insanity; the Lunatics being 2·47 per cent., and the Idiots 1·03 per cent.

5. In regard to the sexes, 13,389 were Males, and 16,929 Females :—

Proportion of the Sexes.

INSANE.	MALES.	FEMALES.	TOTAL.
Lunatics - -	9,280	12,152	21,432
Idiota - -	4,109	4,777	8,886
TOTAL -	13,389	16,929	30,318

It is worthy of remark that, while the Females considerably preponderate among the Lunatics, they do not much exceed the Males among the Idiots. But, taking the two classes together, the ratio of Females to Males is not so great as it is in the Pauperism at large, where, among the Adults, the Female are more than double the number of the Male recipients of relief. The Returns of Pauperism do not distinguish the sexes of the children, but there is no reason to suppose that, if they were discriminated, the proportion would be materially changed.

6. In the next Statement the number of Lunatic and Idiot Paupers are shown for each Division of England and Wales, with the total number of Paupers of all classes relieved on the same day.

Paupers on 1st Jan. 1859.

* Besides these Unions, some places, which do not make the usual Returns of Pauperism to the Poor Law Board, have transmitted lists of Insane Paupers. The total number of Insane Paupers so returned is 98; viz., 75 Lunatics and 23 Idiots; the particulars are printed, with the other Unions, at page 26, *et seq.* of the Parliamentary Paper.

Residences
of the In-
sane.

10. The 30,318 Insane Paupers were maintained in the following establishments, or were lodged with strangers, or resided with their relatives ; namely —

- 14,481 in County or Borough Lunatic Asylums.
- 2,076 in Registered Hospitals, or in Licensed Houses.
- 7,963 in Union or Parish Workhouses.
- 906 in Lodgings, or Boarded Out.
- 4,892 Residing with Relatives.

Of the small number returned as “ In Lodgings, or Boarded Out,” 326, or more than *one third*, are chargeable to Parishes in Wales.

Average
weekly ex-
pense.

11. The average weekly expense of each Insane Pauper, is printed opposite the respective Unions, at page 26, et seq.* But, it is there termed, in conformity to the Schedule the “ Average Weekly Cost of Maintenance and Clothing.” This does not appear, however to be altogether an accurate description of the expenditure. The Cost in County or Borough Asylums may be illustrated from the example of the Chester Asylum, where, according to the 13th Report of the Commissioners in Lunacy, page 112, the weekly charge for Paupers belonging to the County, or to Boroughs in the County, is 8*s.* 2*d.* ; for Paupers of other Counties or Boroughs 14*s.* The Cost to the Asylum is made up thus :—Provisions, 4*s.* 3*d.* ; Clothing, 7*d.* ; Salaries and Wages, 2*s.* ; Necessaries, 9*d.* ; Surgery and Dispensary, 1*d.* ; Wine, Spirits, and Porter, 1*d.* ; Furniture and Bedding, 5*d.* ; Garden and Farn, 2*d.* ; Miscellaneous, 3*d.* ; Total, 8*s.* 7*d.* The charge in Licensed Houses will be made up, it may be presumed, of similar expenses, with some addition as the proprietor’s profit. The charge in Workhouses is the expense of food, clothing, and necessaries, supplied for the in-door Paupers. The sums in the two remaining Columns, are the weekly allowances, made by the Guardians, in respect of the out-door Insane Paupers.

Proportion
of Idiots.

12. The proportion of Idiots to the total number of Insane Paupers is between *one third* and *one fourth*, i. e., 29·3 per cent. for the whole

* See the Parliamentary Paper.

Country. But there is considerable variation from this proportion in different Union Counties, and in different Divisions. In the Metropolis, where it is the lowest, the ratio is 9·5 per cent. ; and in North Wales, where it is highest, it is 52·3 per cent.. The following is a list of the Divisions, arranged according to the greatest proportionate number of Idiots :—

Ratio per cent. of Idiots on Total Number of Insane Paupers.

Welsh - - - -	47·8	Northern - - - -	31·4
North Midland - - -	35·7	Eastern - - - -	30·7
West Midland - - -	33·3	York - - - -	29·2
South Western - - -	32·6	North Western - - -	28·2
South Eastern - - -	31·8	The Metropolis - - -	9·5
South Midland - - -	31·8		

In *Twenty-two* Union Counties the ratio *exceeds one third* of the total of Insane Paupers ; namely :—

Ratio per cent. of Idiots on Total Number of Insane Paupers.

North Wales - - - -	52·3	Berks - - - -	36·8
South Wales - - - -	48·8	Worcester - - - -	36·5

Nottingham - - - -	37·6	Hertford - - - -	33·5
Sussex - - - -	37·2	Lincoln - - - -	33·5

13. The ratio of Lunatics, and of Idiots to the total number of Insane Paupers, is shown in the Statement, at page 278, for each Union-County and Division, as well as the ratio of the Insane to the total number of Paupers. Arranging the Divisions according to the highest proportion of Insane Paupers on the total Pauperism, the following list is obtained :—

Ratio per cent. of Insane to Total Pauperism.

The Metropolis - - -	4·77	South Western - - -	3·07
North Midland - - -	4·21	South Midland - - -	2·97
West Midland - - -	4·07	Northern - - - -	2·92
York - - - -	3·78	Welsh - - - -	2·76
North Western - - -	3·66	Eastern - - - -	2·72
South Eastern - - -	3·29		

From want of space the usual “Industrial Statistics” have not been printed in this paper in respect of the separate Unions, but they will be found in detail in Return (B.) or (C.) of this series.

R E P O R T.

TO THE QUEEN'S MOST EXCELLENT MAJESTY.

*Poor Law Board, Whitehall,
20th April 1861.*

MAY IT PLEASE YOUR MAJESTY,

We, the Poor Law Board, beg leave to present to Your Majesty the following Report of our proceedings during the past year.

We stated in our last Report, that since the Poor Law Amendment Act came into operation the sum annually expended for "Relief to the Poor" has very largely decreased, and that this expenditure is in a diminishing ratio when compared with the population and wealth of the country.

Expenditure
for Relief
before and
after the
passing of
the Poor
Law Amend-
ment Act.

We adverted to the following facts in support of this statement:—

The Poor Law Amendment Act came into operation in the autumn of 1834. During the twenty-two years preceding, that is, from 1813 to 1834, the aggregate sum expended for the relief of the poor in England and Wales was 143,110,817*l.*, a sum equivalent to an annual average disbursement of 6,505,037*l.* In the subsequent twenty-five years, that is, from 1835 to 1859, the aggregate sum expended was 129,226,833*l.*, a sum equivalent to an annual average expenditure of 5,169,073*l.* Hence, during a quarter of a century there has been an average annual decrease of 1,335,964*l.*, and a total decrease during the twenty-five years of 33,399,100*l.*

Absolute
Decrease.

This saving has been effected notwithstanding the heavy additional burdens which have been imposed upon the poor rates, and charged in the item "relief to the poor," since 1834. Two of these burdens, the cost of the new union workhouses and the salaries of the paid union officers, have not averaged less than 800,000*l.* a year; 200,000*l.* a year for the former, and 600,000*l.* for the latter; being a total amount of 20,000,000*l.* for the two charges together during the twenty-five years in question.

The diminution of the law charges, and of the expenses of the removal of paupers, since 1834, has been a marked feature in the recent administration of the Poor Law. In the years 1833 and 1834 these expenses averaged 256,508*l.* per annum; in the four

following years they averaged 148,973*l*. In subsequent years these items declined still more; and according to the latest returns, namely, those of 1857, the amount was only 80,733*l*., or less than *one third* of the average expenditure of 1833 and 1834.

We desire now to submit, as in former reports, statements showing the condition of pauperism during the past year.

Expenditure
for Relief
during the
Year ended
at Lady-day
1860.

The sum of 5,454,964*l*. was expended for the relief of the poor during the year which ended the 25th of March 1860, being a decrease of 103,725*l*. as compared with the sum expended during the preceding year.

The following Table shows the comparison of the expenditure of the years 1858-9 and 1859-60 :—

Years ended Lady-day.	Expended for Relief of the Poor in England and Wales.	Decrease in 1860, as compared with 1859.	Decrease per Cent.	Rate per Head on estimated Population.	Decreased Rate per Head.
	£	£		s. d.	s. d.
1859	5,558,689	103,725	1·9	5 8½	0 2½
1860	5,454,964			5 6	

Note.—The Summary of the Poor Rate Return inserted in the Appendix (page 45 *et seq.*) sets forth the expenditure, the total of which is shown in the above Table, more in detail. This expenditure comprises, “in-maintenance,” column (a); “out-relief,” column (b); “maintenance of lunatics in asylums and licensed houses,” column (c); “workhouse loans repaid, and interest thereon,” column (d); “salaries and rations of officers,” column (e); “other expenses of or immediately connected with relief,” column (f). Those “other expenses” comprehend the cost incurred for emigration, for extra medical relief and fees, and for the burial of paupers, &c.

The rate per cent. of the increase and decrease respectively in the expenditure for relief, as regards each union-county in England and Wales, is as follows :—

Note.—The net annual value of rateable property in 1841 was 62,540,030*l.*; in 1847 it was 67,320,587*l.*; in 1850 it was 67,700,153*l.*; and in 1856 it was 71,840,271*l.* The gross estimated rental for 1856 was 86,077,676*l.*

The preceding statements, taken from the Annual Poor Rate Returns, have reference to the year ending at Lady-day in each case, and comprise the expenditure for all purposes connected with the relief of the poor in England and Wales.

The following statements show the amount expended for relief only, in 646 Unions and Parishes under Boards of Guardians (comprising a population of 17,672,609, census 1851), and afford the means of comparing the expenditure under that head for the years ending respectively on the 29th of September 1859 and 1860, as well as those ending on the 25th of March of the same years :—

Irremovable Paupers.

The amount expended for in-maintenance and out-door relief to irremovable paupers during the year ended at Lady-day 1860, is shown in respect of each union (so far as the returns enable us to discriminate it, from the cost of the same items of relief incurred in regard to other paupers) at page 150 of the Appendix.

The unions making separate returns of this class of expenditure contain about *fifteen seventenths* of the entire population. The figures in the following Table, have been abstracted from the Appendix to this and the four preceding annual reports.

Estimate
of the
Pauperism
of England
and Wales.

The persons in receipt of relief in certain parishes incorporated under Gilbert's Act, or in single parishes still under 43d Elizabeth, (the population of such parishes being about 250,000,) are not included in the summaries given in this and the preceding page, no returns having been received from them.

We have, therefore, made an estimate of the numbers in receipt of relief in the places not included in the above summaries; and for the purpose of showing the average numbers *at one time* in receipt of relief during the whole year, we have taken the mean of the numbers in receipt of relief on the 1st of July and the 1st of January respectively.

The result of this estimate for each year from 1849 (being the first year for which it can be given) to 1860 appears in the following Table, which may be taken as exhibiting the pauperism of England and Wales

* The Population for 1851 is that given in the Census ; that for the other years is estimated.

The decrease in the average number of paupers of all classes in receipt of relief at one time in 1860, as compared with 1849, is 22·4 per cent. ; and as regards able-bodied paupers the decrease in 1860, as compared with 1849, is 42·3.

tion of out-

Paupers.

On reference to the return at page 184 it will be seen that there was a large number of able-bodied paupers relieved out of the workhouse. In 629 unions returns are made to the Board according to the form prescribed by the General Order for keeping accounts, which reckons the children of able-bodied paupers residing with them in the number of the able-bodied. State of employment.

We believe that the agricultural, manufacturing, and commercial interests may be considered to have been generally in a prosperous state during the past year, and that the working classes have obtained, except in a few instances, the usual amount of employment. In some branches of trade, however, a serious depression has occurred. In Coventry, Foleshill, and other neighbouring towns, where the ribbon trade is principally carried on, great distress has unfortunately prevailed for several months, occasioned mainly by a change of fashion (which has diminished the consumption of ribbons), by the lateness of the spring, and the long continued wet weather throughout the summer. At the same time a strike of long continuance during the autumn among the silk weavers tended greatly to increase the distress of the labouring classes.

The failures in the leather trade have seriously affected the persons employed in the manufacture of boots and shoes in Norwich, Bermondsey, and other places.

In Nottingham also there has been a serious depression in trade, and consequently much distress. It began early in the autumn, and was occasioned, we believe, in a great measure by the unsettled state of Europe, and subsequently of the United States of America, which led to a considerable diminution in the orders for the goods manufactured there. The difficulties, we regret to add, have been enhanced there also by a strike among the workmen.

Distress in the winter.

The distress already prevailing in some districts, was during the winter greatly aggravated and increased by a frost of unusual severity and duration, which set in on the 17th of December, and, with two slight intermissions, lasted till the 19th of January. It was accompanied in several parts of the country with a deep fall of snow, and its effect was necessarily to suspend many of

the operations of agriculture, to impede or entirely prevent the navigation of the rivers and canals, and to put an end for the time to several out-door trades and occupations.

A commercial convulsion or serious failure of trade not only throws the working classes immediately out of work but impairs the funds to which they must trust for future employment. If the crisis be of long duration the recovery from it is uncertain, and, in point of time, generally speaking, very gradual.

It is obvious, however, that the occurrence of a severe frost, of which the duration in this country is seldom long, only suspends for a time the means of employment, and does not actually diminish the amount of work to be done. The labour in the fields, which has been interrupted, must be resumed and completed as soon as the thaw comes; the goods which have been detained in their transit on the canal or river must, when the ice breaks up, be conveyed to their destination; the vessels which the east wind has kept out of port will arrive in greater number with the change of weather; the buildings left unfinished must be completed. In short on all hands arrears of work will have accumulated, and the labourer will be compensated for the temporary cessation of employment by the activity and demand for his services which will succeed.

It is therefore only required that the labourer should be enabled, either by the terms on which he is hired or by means of resources which his own foresight and thrift may have provided, to pass without serious difficulty or suffering through the short interval of the suspension of work. His average amount of employment, and consequently his average earnings, ought not to be materially affected.

With reference to the actual administration of relief during the late winter it is satisfactory to us to state, that out of 628 Unions we have received applications for a relaxation of the general orders relating to the relief of able-bodied men, or for our sanction to a departure from the provisions of such orders, from only 98, being less than one sixth of the whole number. From a large proportion of these also the relaxation sought has been for a few special cases only. In the great mass of the Rural Unions there has been no serious pressure, and no material increase in relief has occurred. The workhouses, with some exceptions, have not been filled, and the Guardians have had no difficulty in adhering strictly to the provisions of the General Prohibitory Order. We think it may hence be concluded that, generally throughout the agricultural districts, the employers of labour have been able to find work for their labourers, and to continue them in their service during the late inclement winter.

In some parts of the metropolis, and in other towns, and in some Unions in the neighbourhood of towns, the pressure has been more severe, in consequence of the population including a large number of labourers having no permanent employment, and being engaged in trades or occupations which were entirely

stopped by the frost, such as bricklayers and others connected with the building trade, market gardeners, labourers at the docks, fishermen, and those employed in the navigation of the rivers and canals. In the metropolis, where there is always a large mass of such labourers congregated, the usual number was probably materially increased by the extensive works connected with the drainage of the metropolis and with railways in its immediate neighbourhood, which are now going on. Even here, however, the distress was partial only.

It may also be observed, that generally the demands for relief did not very largely increase until the frost had continued for about a fortnight; showing that the labourers were not under the necessity of applying for relief on the immediate cessation of their employment, but were enabled for a time to provide for themselves from their own resources.

Test of
destitution.

We need not insist on the importance of relief being so administered as to encourage and foster habits of prudence, foresight, and self-reliance on the part of the working classes.

We deprecate, in the strongest manner, any system of indiscriminate relief as being unjust towards the ratepayers, and calculated both to encourage imposture, and to diminish the means of providing for the wants of the really necessitous, by the misapplication of the funds intended for their relief.

There can be no doubt, however, that when through a long continued frost, or from any other circumstances the actual means of the labourers are exhausted, or even if through improvidence they become entirely destitute on the immediate failure of their usual employment, it is the duty of those charged with the administration of relief to provide them with sufficient means of support. Neither can it be doubted that during the late severe weather extensive distress prevailed, and a serious emergency had arisen requiring prompt measures to meet it, and energy on the part of those who were charged with the duty of providing relief.

It remains to consider how far the present arrangements of the Poor Laws are adequate to such an emergency.

Operation of
the prohibi-
tory order,
and the
order regu-
lating out-
door relief.

The administration of relief to able-bodied men is regulated in rural districts by the General Order of the Board, which prohibits, unless in exceptional cases, out-relief to able-bodied men; and also in a large number of the same Unions by a supplemental order, which provides that when out-relief is granted to able-bodied men, they shall be set to work in return for the relief. In the metropolis and in the manufacturing districts the former order is not in force; but the Out-door Relief Regulation Order, which was issued in 1852, requires that able-bodied men shall, if allowed out-relief, be set to work by the Guardians, and that the relief afforded to them shall be given half in kind.

All these orders contain a provision that, if the Guardians find it necessary to depart from the regulations of the order, the relief, if reported to the Board and approved by them, shall not be deemed unlawful.

We are of opinion that these orders sufficiently provide for any cases of emergency, and that there is no foundation for the allegation that the stringency of the regulations was such as to prevent the administration of adequate relief under the circumstances which have recently occurred.

We have received several communications from the Unions where the pressure chiefly existed, applying either for a relaxation of the orders above referred to, or for advice as to the course which the Guardians should take under the emergency. We saw no reason, in consequence of a pressure which could not be of long duration, and which a change of weather might at any moment put an end to, to suspend the operation of the General Orders. We could only advise that where sufficient Workhouse accommodation was available it should be made use of as far as practicable, that when it was found necessary to give out-relief to able-bodied men, it should if possible be accompanied with a task of work; and that when the orders could not be strictly adhered to, the cases in which the Guardians departed from them should be reported to us, under the provisions of the orders, for our sanction.

We received an application from the Governors and Directors of the parish of St. James, Westminster, who although the parish is governed by a local Act, and is not affected by the General Orders of the Board above referred to, were desirous of our advice in the emergency. We insert in the Appendix (p. 33), a copy of the letter, and of the answer of the Board which explains our views on the subject.

St. James,
Westminster.

The actual distribution of relief rests with the Boards of Guardians and their officers, and it is upon their energy and activity in the discharge of their duties that its effective administration depends. We fully admit that the arrangements made for ordinary circumstances may not be invariably adequate to meet an unexpected and serious crisis, but the Guardians are invested with the power to appoint any number of assistant officers that may be required, and to call for any additional funds; and we are aware of no reason why any amount of distress which is likely to arise may not be, with the means at the disposal of the Guardians, satisfactorily and successfully provided for by them.

We have much pleasure in stating, that in most instances the duties of the Guardians during the late pressure have been discharged with great zeal and judgment.

We may refer to a few cases, in which the details have been communicated to us, in exemplification of the mode in which the Guardians have acted.

The Guardians of the Leicester Union, in reporting the large increase in the number of inmates in the Workhouse, and their proposal to employ a policeman to assist in maintaining the necessary discipline, state as follows:—"Although the depression is severe, the Guardians are under no apprehension that they shall not be enabled to maintain the Workhouse

Leicester
Union.

“ Test, which previous experience has proved to be the most
“ satisfactory mode of administering relief.”

In subsequently reporting on this Union, on the 21st of January, Mr. Weale, the Inspector of the District, states:—
“ This Union altogether is in a most satisfactory state. There
“ has been considerable pressure during the frost, but the
“ Guardians have promptly met it. The order in force in this
“ Union is the Out-door Relief Regulation Order, but there are
“ not more than 15 persons employed under it. The Guardians,
“ except in a few exceptional cases, apply the Workhouse as a
“ test of destitution. At this time there are 84 able-bodied men
“ in the house. The Master has not had occasion during the
“ whole of the pressure to make one complaint to the magis-
“ trates of misbehaviour in the Workhouse. The increase in the
“ out-poor this week, as compared with the corresponding week
“ last year, is only 74. So far as I can judge, the conduct of
“ the Guardians has given general satisfaction. In 1848 there
“ were 11,000 people relieved in one week. The total number
“ relieved last week was 2,166.”

Chorlton
Union.

From the Guardians of the Chorlton Union we received the following letter, dated the 21st January 1861 :—

I am directed by the Guardians of the poor of this Union to inform you that, in consequence of the long continuance of the frost in this district, an unusually large number of applications for relief have been made by able-bodied men, chiefly bricksetters and plasterers' labourers, who state they have not been able to work for the last four or five weeks ; most of them had previously applied for relief, and had been offered admission to the workhouse and storage room for any articles of furniture they desired to retain.

On Thursday, the 10th instant, fifty or sixty of these applications were similarly dealt with, and the men then went in a body to see the magistrates assembled in petty sessions, who heard their statements and promised to communicate with the Guardians, which was done by the Mayor through the vice-chairman of this Board.

On Friday morning (11th instant) upwards of one hundred applicants were in attendance whilst the Guardians were sitting. After hearing some of the applications the Guardians resolved that every applicant should be visited at his home during the day, and the Out-relief Committee undertook to meet on Saturday morning and deal with all the cases that should come before them.

With some extra assistance the whole of the cases were visited and the reports entered on Friday. And on Saturday the Committee met and sat from half past nine o'clock A.M. to nearly four o'clock in the afternoon.

The whole of the applications (106 in number) were heard and dealt with as follows :—

23 were offered workhouse orders, 16 of which were refused.

27 were refused relief.

5 did not appear during the day.

13 were allowed out-door relief, 2s. each (half in kind).

20	ditto	ditto	3s. each	ditto.

The Guardians would most probably not have relaxed their determination to offer the house in every case where relief was necessary, but a thaw had commenced on Friday and continued all Saturday with the prospect of being permanent ; and as all the men stated they should be able to resume work on Monday or Tuesday, it was thought advisable to give such temporary relief in each case as would put them over a few days.

In accordance therefore with Article 10. of the Out-door Relief Regulation Order, I report the foregoing circumstances, and enclose a list of the persons relieved and the sums given in each case.

In Nottingham, although the number of persons in receipt of out-door relief amounted at one time to 6,319, and in-door to 1,014, the Guardians were enabled to set almost all the able-bodied men to work, and to adhere to the provisions of the General Relief Order, except that the proportion of relief given in kind was somewhat less than that prescribed by the order. Nottingham.

The Guardians of the West Ham Union, in which a considerable pressure existed, took measures for setting to work the able-bodied men who applied for relief. The result is stated in the following minute made by the Guardians at their meeting on the 17th of January :—"The Relieving Officers reported that " the applications for out-door relief were not likely to be fewer " in number than they were last week. The Guardians there- " fore determined to adhere to the arrangements then made in " reference to the Labour Test Order, which appeared by the " statement of the Relieving Officers to have worked very " satisfactorily. The full quantity of oakum delivered during " the past week had been picked and returned according to the " regulations prescribed by the Board, and had been sufficient " as a task to deter mere idlers and impostors from continuing " their applications for relief." West Ham Union.

We might also refer to other cases showing the favourable result of the judicious and firm proceedings of the Guardians during the crisis.

The existence of distress in some parts of the country has called forth in a remarkable manner the exercise of charity and benevolence, particularly as regards Coventry and the neighbouring towns and the Metropolis.

The distress in Coventry and its immediate neighbourhood began in July last and continued throughout the autumn, and much attention has been paid by the Board and the Inspector of the district to the subject, and the latter has repeatedly visited and conferred with the different Boards of Guardians on the best mode of encountering the emergency which had arisen. Coventry.

We are of opinion that much credit is due to the Directors and Guardians of the Poor for the energy and discretion which they have shown in the administration of relief during this long and trying period, and there can be no doubt that their labours have been much lightened by the benevolent commiseration which the state of the Coventry weavers has so generally excited.

Before the commencement of the winter in November last, a meeting of the magistrates was held on the subject, and a resolution passed, which was forwarded to the Board, applying for a relaxation, in the Unions in that neighbourhood, of their General Orders.

On communicating with the Directors of Coventry and with the Guardians of the neighbouring Unions, we were informed by them that they required no relaxation of the orders of the Board, and considered themselves to have ample powers to meet the emergency. Large sums of money have, however, been sent from various parts of the country to alleviate the distress in Coventry and the neighbourhood, and have been distributed under the care of a committee appointed for the purpose. It is satisfactory to us to state that, by the application of the funds raised for the relief of the poor, the large benevolence of the public, and the partial revival of the ribbon trade, the distress has been much mitigated, and we trust that it will soon entirely cease.

The Metro-
polis.

In the Metropolis, during the continuance of the late severe weather, not only did contributions in large number and amount pour in to all the charitable institutions devoted to the aid of the distressed, but considerable sums were placed at the disposal of the police magistrates and distributed under their directions.

The assistance thus afforded to persons suffering from want, which being unaccompanied with the usual conditions and incidents of relief would be the more readily accepted, necessarily diminished the number of the applications to those whose especial duty it is to administer relief from the Poor rate.

We have, however, no reason to suppose that, had the whole burden fallen upon the Boards of Guardians, there would have been any difficulty in providing the means of meeting the charge, or in making the proper arrangements for the purpose.

Mr. Farnall, the Inspector of the Metropolitan district, states as follows:—

Having attended meetings during the crisis of the Guardians of Bethnal Green, Lambeth, Greenwich. and Poplar, and having personally conferred with the clerks of many Unions, I know that the Guardians were willing and able to meet the crisis with ease; in proof of which I may tell you that the ratepayers of Mile End Old Town expressed to the Guardians of that parish their readiness to be rated to meet any emergency there. A penny in the pound collected on the net rateable value of Mile End Old Town will produce 600*l.*, and this sum would, in the opinion of the clerk, have more than met the requirements of all poor persons resident within that parish without the aid of private subscriptions.

On the 14th instant I attended a meeting of the Bethnal Green Guardians, and on that day orders for admission to the Workhouse were given to upwards of 300 applicants for relief, and at the previous meeting of the Guardians a rather large number of orders were given, but only 39 persons then accepted them and came into the house.

I will merely add that in the third week of the current quarter there were in my district 113,156 persons relieved, and that in the corresponding week of last year there were 89,258 persons relieved, showing an increase of 23,898 persons relieved in one week.

We desire to add, that we have not thought it right to withhold our sanction to the relief actually granted in some Unions under the sudden emergency, which was likely to be of short duration, although it was at variance with the provisions of the orders of the Board, and was unaccompanied by any test of destitution.

At the same time we hope that the experience of this winter will not be lost sight of, and that it will suggest the expediency of adhering in all cases to that system of administration, which in the great majority of the Unions has produced so favourable a result, and prevented any difficulty being experienced in the administration of relief in a season of unusual severity.

We are convinced that the best preparation to meet such an emergency is to conduct the ordinary administration of relief in strict conformity with those regulations which are founded on the principles of the Poor Law Amendment Acts. We believe that the regulations in question are calculated not only to afford a proper safeguard against imposture, and due protection to the interests of the ratepayers; but also to secure adequate relief to the poor, and permanent benefit to the working classes.

We refer to the Returns in the Appendix (p. 259 *et seq.*), as showing the increased number of paupers relieved during the late severe weather.

We also insert the following extracts from the communications which we have received from our Inspectors on the subject of the administration of the law during that period.

Mr. Gulson states, in reference to the Unions in Cornwall, Devon, and the neighbouring counties,—

Unions in
Cornwall
and Devon.

There has been no deficiency in any Union in my district. The several Boards of Guardians have been able satisfactorily to deal with all applications for relief, and no difficulty of any kind has been experienced during the late severe weather.

At Bristol, where the greatest pressure arose, the applications were numerous, but the Guardians found no difficulty in meeting the emergency. They had a good stone yard and oakum shop at which to employ all applicants able to work according to their several abilities, and this test operated to prevent imposture. The result has been that the out-door paupers in the Bristol Union did not increase more than about 400, the greatest number being 3,783, whilst in the corresponding week of last year, the number was 3,391. In the same week the number in the Workhouse was 1,001, and in the corresponding week of last year, 907. In all the Unions under my supervision the number of applicants was of course increased during the late severe weather, but in none has the administration of the Poor Law been insufficient to meet the emergency, nor does any complaint of its insufficiency exist in this part of the country.

Mr. Hawley, Inspector of Unions in Hants, Wilts, and Sussex, states:—

Unions in
Hants,
Wilts, and
Sussex.

Though the weather has probably been as severe in this as in any other districts, I am not aware of any difficulty having occurred which the Guardians have not been able to overcome with the ordinary machinery at their disposal.

The only Unions in which unusual pressure was experienced were the Lymington and New Forest Unions, in the county of Southampton, and the Midhurst Union, in the county of Sussex.

Altogether I consider the late crisis to have afforded incontestable evidence of the sufficiency of the Poor Law, not only for all ordinary purposes, but for dealing with any sudden and unusual pressure which may be brought to bear against it. Its elasticity of action, promptitude, and facility of application, and beneficial results to the poor, have been fairly tested, and a sound and vigorous, but at the same time humane, administration of its provisions are all that is required for a practical vindication of its own value and of the prudence and judgment which framed it.

Unions in
Midland
Counties.

Mr. Weale, in reference to his District, comprising Unions in the Midland Counties, states:—

In my district the Poor Law has been quite able to meet all the applications for relief that have been made upon it. Scarcely any of the Workhouses are full, and in only two or three Unions has it been necessary to have resort to the Out-door Labour Test Order.

Unions in
Norfolk,
Suffolk,
Essex, and
Kent.

Sir John Walsham, Inspector of Unions in Norfolk, Suffolk, Essex, and Kent, states:—

So far as my experience goes, the allegation repeated in many newspapers, that the law had practically broken down in the late crisis, was neither founded on fact, nor justified by anything which really occurred, at all events in my district.

It is true that the West Ham Union is the only Metropolitan Union with its "Londoners over the border" under my charge; but the Board will have learned from my report of the 23d, that the numerous applications for relief, even in that Union, are stated to have been satisfactorily met by admissions into the Workhouse, and by employment under the Labour Test Order.

In the great majority, i.e., in sixty at the least of my seventy-six Unions, the Guardians have not, however, found it necessary, during the last trying month, to depart in any respect from the provisions of the Prohibitory Order, nor was the workhouse accommodation of those Unions entirely exhausted at any period of such month; and although, as compared with the corresponding weeks of the last ten years, the number of workhouse inmates of the able-bodied classes has been undoubtedly high, I have often known them higher in ordinary winters prior to 1851.

I have failed to perceive the slightest symptom of a break-down in the law during the recent crisis. On the contrary I should say that such crisis proved beyond a doubt the facility and efficiency with which the local organization, regulated rather than controlled by the central authority, can deal with any emergencies.

Unions in
Berks,
Bucks,
Surrey, and
Sussex.

Mr. Pigott, whose district lies in Berkshire, Buckinghamshire, Surrey, Sussex, and other counties, states:—

In my district, which consists of rural Unions only, all applications for relief, so far as I have been able to ascertain, have been adequately dealt with, without any infringement of the spirit of the Poor Law Amendment Act, or departure from the Regulations of the Poor Law Board.

In three or four Unions (Buckingham, Kingston, and Uxbridge) the Guardians have availed themselves of the power given under Article 6.

of the Prohibitory Order to grant out-relief, in kind, to large families of labourers having employment temporarily suspended through the frost, which relief has been sanctioned by the Poor Law Board; and in a few Unions where the Out-door Labour Test Order is in force, it has been had recourse to in similar cases, but in only five of the sixty-seven Unions under my superintendence, viz. :—

Buckingham,
Brighton,
Guildford,
Maidstone,
Uxbridge,

has the maximum number of inmates been reached, and in three fifths of the remainder the male able-wards are almost entirely empty.

So far from the Poor Law having broken down, I believe that it is wholly owing to its salutary provisions and arrangements that, in rural Unions, every case of destitution has been promptly dealt with and relieved, and that the undoubted privations and sufferings of large and young families of labourers during so long and general a suspension of employment in husbandry, have been so mitigated that I have not heard, in the seven counties composing my district, of a single case requiring official inquiry or intervention.

Mr. Graves, Inspector of Unions in Gloucestershire, Herefordshire, and other counties in the west of England, and in South Wales, states :—

Unions in
the West
of England
and South
Wales.

Nothing has occurred within my district which leads me to suppose that the Poor Law, as set forth in Acts of Parliament and in the Regulations of the Commissioners, is injudicious or necessarily in-operative under such pressure as we have recently witnessed.

The distress has been less than I anticipated and has been exceeded on several former occasions within my knowledge, but it has been of a kind easily brought home to the feelings.

I have not heard of any instance in which a Board of Guardians has been unable or unwilling to deal with all applicants, and I believe that in general their administration has been sound.

Mr. Doyle, Inspector of Unions in Cheshire, Shropshire, Staffordshire, and in North Wales, states :—

Unions in
Cheshire,
Salop, Staf-
ford, and
North
Wales.

There is not the slightest pretext for saying that in this district "the law has been broken down" or been found insufficient to meet the emergency created by the temporary distress of a portion of the labouring class. In every Union in my district in which unusual distress prevailed the Guardians met the difficulty with promptitude and success.

A report from Mr. Doyle on the subject is inserted in the Appendix, p. 36.

Mr. Manwaring, Inspector of Unions in Lancashire and the West Riding of Yorkshire, in reference to the inquiry whether he had observed any deficiencies in the Poor Law during the recent pressure, which rendered its administration insufficient fully to meet the emergency, states :—

Unions in
Lancashire
and the
West Riding
of York-
shire.

I have not observed anything of the kind in my district or heard of it.

There are several Unions in my district where the Guardians have given out-door relief to comparatively a few able-bodied, but they have reported the cases to the Poor Law Board.

I feel confident that if every Board of Guardians in my district had tried to relieve all able-bodied in strict conformity with the Order, they could have done so without any difficulty.

Unions in
Lincoln-
shire, Not-
tingham-
shire, the
East and
North
Ridings of
Yorkshire,
&c.

Mr. Lambert, whose district lies in Lincolnshire, Nottinghamshire, the East and North Ridings of Yorkshire, and other counties, states:—

Out of the sixty-one Unions in my district there have been only nine in which a relaxation of the law has been found necessary or applied for.

With the above exceptions the law has been strictly administered throughout my district, and in no single instance can it be said to have broken down.

Funds have never been wanting to meet the extra relief required, and neither Guardians nor Union officers have been found indisposed or unable to deal satisfactorily and systematically with the applications which have come before them. As a conclusive proof that there was no want of funds to meet the recent pressure, the aggregate balances in the hands of the Treasurers of the 61 Unions in my district at the end of the fourth week of the frost amounted to no less than 57,805*l*., whilst the whole cost incurred for out-door relief during that week was only 5,343*l*.

Unions in

berland,
Cumber-
land, and
Durham.

Mr. Hurst, Inspector of the Unions in Northumberland, Cumberland, and Durham, states:—

After ten years' experience in the North as an Inspector I can say with truth the Guardians with whom I have been associated carry out this principle [i.e. that the law of England does not allow any man to starve]; at the same time they endeavour to hold the scales evenly between the applicant for relief and the ratepayer. A different course must be attended with imposition, to prevent which the Workhouse and Labour Tests must be resorted to. Relief when thus administered will be followed by habits of forethought and self-dependence.

The effect of the system in the North is to make the working classes more provident. They have been receiving good wages; and had they not been more careful of their earnings than formerly, the recipients of relief during nearly four weeks of frost, ending the 12th instant, as compared with the two previous years must have largely increased.

Insane
Paupers,
1st January
1860. •

We have caused the lists of lunatics, idiots, and other persons of unsound mind chargeable to the poor rates on the 1st January 1860, to be tabulated.

It appears from these that in 646 unions and single parishes under Boards of Guardians, there were 31,543 insane paupers, of whom 22,378 were lunatics and 9,165 idiots. The whole number of paupers, inclusive of the insane, was on the same day 850,896.

In regard to the sexes, it will be seen that 13,896 were males, and 17,647 females.

Insane Paupers.	Males.	Females.	Total.

Idiots - -	4,229	4,936	9,165
Total - -	13,896	17,647	31,543

These paupers were maintained in the following establishments; or were lodged with strangers; or resided with their relatives; viz.—

- 16,201 in County or Borough Lunatic Asylums.
- 1,143 in Registered Hospitals, or in Licensed Houses.
- 8,210 in Union or Parish Workhouses.
- 785 in Lodgings, or Boarded Out.
- 5,204 Residing with Relatives.

The number of the Insane in each Union-County is set forth, with other particulars, in the Appendix at page 266 *et seq.*

A statement will be found in the Appendix (page 274), ^{Education of pauper children.} showing the average number of children attending Workhouse Schools in England and Wales, as well as the number attending District Schools, during the half year ended at Lady Day 1860; and also the amount of money paid in each case, from the Parliamentary Grant, in respect of the salaries of teachers for the year ended at the same period. District
Schools, and
separate
Union or
Parochial
Schools.

We have adverted in previous reports to the legal and practical difficulties in the way of the general organization of School Districts under the provisions of 7 & 8 Vict. c. 101. s. 40., and 11 & 12 Vict. c. 82. s. 1. No additional school districts have been formed during the past year. Some further progress has, however, been made in the establishment of separate schools for large Unions or single parishes.

The school for the important parish of Saint Marylebone, the building of which had been commenced at the date of our report for the year 1858, has since been completed, and is now in active operation. The removal of the children from the crowded Workhouse of that parish to an establishment situated in a more open and healthy locality, will not only prove, as we hope, highly beneficial to them, but will render practicable an improvement in the accommodation and classification of the Workhouse itself. The Guardians of the Sheffield Union since completing the alterations of their Workhouse have made considerable improvements in the building at Pitsmoor, which has been occupied for some time by the pauper children of that Union, and which we believe will be an efficient and useful establishment. The Guardians of the Hamlet of Mile End Old Town, in addition to a large and commodious Workhouse, have provided an entirely distinct school for their children.

Although some difficulties may occasionally arise in the management of separate establishments for children, their maintenance and education in schools removed from the associations of a Workhouse are so manifestly advantageous, that it appears highly desirable to promote the formation of such schools in all practicable cases.

New Unions.

The increased population and importance of the port of Birkenhead and its neighbourhood having very materially altered the condition of the Wirral Union, in Cheshire, we have deemed it expedient to divide that Union into two parts, and to constitute a new Union, which we have designated the Birkenhead Union. The order constituting this Union came into operation upon the 25th March 1861.

We have also formed two Unions in the West Riding of Yorkshire out of some parishes and townships hitherto united, and others which, it was supposed, formed part of some of the Gilbert Unions in that county, but which, according to a decision of the Court of Queen's Bench lately pronounced, were held not to be legally united with those incorporations. One of these Unions is termed the Wetherby Union, having the town of that name for its centre; the other is designated the Wharfedale Union, being composed of townships mostly situated in the valley of the river Wharfe.

The particulars of these Unions will be found in the Appendix, p. 297.

Vaccination.

A summary of the returns received from the several Unions and Parishes in England and Wales of the number vaccinated

by the public vaccinators during the year ended at Michaelmas last is given in the Appendix, page 300. This summary shows the number of persons vaccinated during the present year to have been 494,942, being an increase upon the number vaccinated in the last year of 39,593. The summary also shows that the number of cases in which the vaccination has been successful is 485,927, which is an increase of 40,907 upon the number successfully vaccinated in 1859.

We have affixed our seal to the plans of new workhouses for the following Unions; viz., Beverley for 130 inmates, Blackburn 700, Gower 50, Hartlepool 200, Huddersfield 150 (adults), and Sedgefield 60 inmates; and to plans of school-houses for the Parish of Saint Pancras for 400 children, and for the Sheffield Union for 160 children; and also to plans for the enlargement or improvement of the workhouses of the following Unions; viz., Bradfield, Chelsea (Parish), Chorlton, Crickhowell, Downham, East Retford, Kensington (Parish), Louth, Newmarket, Poole, Portsea Island, Runcorn, Salford, Settle, Solihull, South Shields, Stoke-upon-Trent (Parish), Tynemouth, West Bromwich, Whitby, and Windsor; also to plans for altering and improving the Brighton school-house, the Manchester school-house (at Swinton), and the school-house of the Reading and Wokingham School District (at Wargrave); and likewise to plans of new board-room offices for the parish of Rotherhithe and for the York Union.

The Act of the previous Session, 22 & 23 Vict. c. 49., provided by a retrospective clause for the payment of outstanding claims against Boards of Guardians within a limited period, and as to such as had been incurred beyond the period of two years prior to the date of the Act, empowered this Board to authorize the payment of such claims by the Guardians. Where any ratepayer should impugn the propriety of the claim, the Board were required by the terms of that clause to institute an open and public investigation, so that the Board might be satisfied that no fraud, collusion, or neglect of the general rules of the Board, respecting the contraction or discharge of the debt or claim, had been committed by the claimant. We have issued 20 orders under this provision, which applied to 94 debts or claims, but in only one case was a public investigation required. That application was made in reference to the debts of the City of London Union, and an open inquiry which lasted several days was held before our Metropolitan Inspector. No charge of any improper conduct was established, and we gave our consent to the liquidation of the debts by five annual instalments. The return of the orders issued by the Board under this Act, as required by the clause here referred to, was presented to the House of Commons on the 21st August last, and has since been printed.

The 1st clause of that Act, which requires the Boards of Guardians to pay all their debts within three months after the

expiration of the half year in which they have been incurred, has been generally observed ; but occasionally we have been called upon to extend the period to the limit of 12 months, according to the authority conferred upon us by the Act.

Audit Appeals.

In our last report we set forth in considerable detail the nature of the legal and judicial functions exercised by the Board, and among them we referred to our jurisdiction in regard to appeals against the decisions of auditors. This branch of administration continues to require a considerable portion of the time of the Board, and has attracted much public attention, and elicited some criticism. Complaints are made of the frivolous nature of the disallowances, and the annoyances which are caused to individuals filling gratuitous offices by being exposed to the surcharges imposed by auditors. Our experience enables us to state that, though the amounts which are disallowed are often small in amount, they generally involve some question of principle, or some practice of general application, so that a decision respecting a very small sum may affect many hundreds of pounds, or may alter the course adopted by Boards of Guardians or their officers in administering relief over a large district.

If the decision of the auditor be erroneous, and, like every other judicial authority, he may occasionally err, his decision can be set aside ; if he be legally right, the power conferred on the Board to remit his surcharge or disallowance frees the party from any pecuniary responsibility. The course which has been laid down by the Board to guide them in the exercise of their functions in these cases is to satisfy themselves that the party making or authorizing the payment, fairly and reasonably believed it to be a legal payment. The Board invariably give to the applicant credit for such belief, unless it be shown that by previous decisions fully and carefully considered and confirmed, the illegality and impropriety of the payment must have been known to the applicant. When this is the case, the Board consider that they are not justified in disturbing the auditor's decision.

We admit that when a vigilant auditor succeeds to a lax or less accurate one, and when auditors alter the practice of their predecessors, the Guardians or officers who have to render account may find themselves unexpectedly placed in a difficulty in respect of certain payments, which they did not anticipate.

Under such circumstances we believe, however, that a strict and proper audit, though it may cause a momentary dissatisfaction, must effect a permanent benefit.

In these appeals no expense is incurred by the applicant, as the Board conduct the inquiries by correspondence, and only require such statements of facts as can readily be supplied by the applicant or the officers of the Union or parish.

It has been proposed that the decision of the appeals should be transferred to the county courts or the justices in their petty

sessions. In reference to that proposal we have to observe that neither of those tribunals is so conversant with the rules, orders, and regulations affecting the administration of the law as the Poor Law Board necessarily is; and that the delay and expense which would attend proceedings before any tribunal which might be substituted for the Board is also worthy of consideration.

Legislation.

In the last Session of Parliament two Acts were passed, which require to be noticed by us. The first is the 23 & 24 Vict. c. 101. This statute continues the powers of this Board, which would have expired at the end of the session, for three years, until the 23d of July 1863. When the bill was in the House of Commons, Her Majesty's Government gave their assent to a proposal which was made that there should be a committee of that House to inquire into the working of the Poor Law under the supervision of the Board. Accordingly, upon the motion of the President, at the commencement of this Session a committee has been appointed to inquire into the administration of the relief of the poor under the orders, rules, and regulations issued by the Poor Law Commissioners and the Poor Law Board pursuant to the provisions of the Poor Law Amendment Acts, and into the operation of the laws relating to the relief of the poor. The committee has sat some time, and has been engaged in the examination of witnesses.

Renewal of
the Com-
mission.

The other Act is the 23 & 24 Vict. c. 77., which amends the previous Acts for the removal of nuisances, by establishing the Boards of Guardians to be the local authorities in Unions and parishes to carry into execution the provisions of that Act in places where there exists no other local authority of a corporate or collective character. We deemed it advisable to communicate a short summary of this statute in a circular letter addressed to all Boards of Guardians, a copy of which will be found in the Appendix (p. 31). Many Boards of Guardians have taken this matter into their consideration, and appointed inspectors of nuisances for the parishes in their districts. Some question has arisen in regard to the mode in which the salary of this officer should be charged, and as the statute is silent upon the point, we have advised the Guardians to refer to the number of tenements or to the extent of the population in the respective parishes in every district, and apportion the salary accordingly. It appeared to us that in this manner the charge would be imposed in the nearest proportion to the probable demand for the services of the officer.

The
Nuisance
Removal
Act;
23 & 24 Vict.
c. 77.

The Select Committee of the House of Commons which was appointed in 1858 to report upon the operation of the Act 9 & 10 Vict. c. 66., relating to the Removal of the Poor, and the Acts 10 & 11 Vict. c. 110., and 11 & 12 Vict. c. 110., whereby the relief of irremovable poor has been charged upon the common fund in Unions, and which was renewed in 1859, was again appointed in the spring of last year. These com-

mittees examined a great many witnesses in reference to the several matters referred to them, and particularly in regard to the removal of paupers from England to Ireland, and passed various resolutions, which they reported to the House.

They recommended the reduction of the period of residence from five years to three, and that the area of the residence should be extended from the parish to the Union, that a special provision should be made in reference to orphan children, and that the charge of the maintenance of all lunatic paupers in asylums should be borne by the common fund, and that the contributions of parishes to that fund should be henceforth calculated upon a different basis.

Removals
from Eng-
land to Ire-
land.

They also passed certain resolutions framed to mitigate the hardships to which poor persons are sometimes exposed who are ordered to be removed from England to Ireland. A copy of the several resolutions of the Select Committee of 1860 appear in the Appendix, p. 44.

Two bills have been introduced into the House of Commons during the present Session, for the purpose of submitting these proposals, slightly modified, to the deliberation of Parliament.

Superannu-
ation of Poor
Law Officers.

The President of the Board also submitted to the House of Commons last session a bill for providing superannuation allowances to Poor Law officers by Boards of Guardians; but the session closed before the decision of Parliament could be obtained upon it, and the subject is one which will probably be considered by the committee now sitting upon the general subject of the operation of the Poor Laws above referred to.

Poor medi-
cal relief.

It is also proper to notice the introduction in the same session of a bill by Mr. Pigott, lately member for Reading, having for its object, to provide a better remuneration of medical officers of Unions and parishes, and a different administration of medical relief to the poor. The bill, however, was opposed in so many quarters, and received so little support, that Mr. Pigott withdrew it before it was read a second time.

All which we humbly present to Your Majesty.

C. P. VILLIERS,
President.

APPENDIX.

No. 1.

REMOVAL OF NUISANCES AND PREVENTION OF DISEASES. — CIRCULAR LETTER from the POOR LAW BOARD to BOARDS of GUARDIANS.

*Poor Law Board, Whitehall, S.W.,
10th October 1860.*

SIR,

I AM directed by the Poor Law Board to bring under the notice of the Guardians the provisions of the Act of the last Session of Parliament for amending the Acts for the Removal of Nuisances, and the Prevention of Diseases. The Act is the 23 & 24 Vict. c. 77.

By the statutes 18 & 19 Vict. cc. 116. and 121., the former passed for the Prevention of Diseases, and the latter for the Removal of Nuisances, the powers and obligations thereby created were conferred upon certain local authorities who were either designated or created by those Acts. The Boards of Guardians of Unions and Parishes were not among them. The Act of the last Session, however, having made an alteration in this respect, and created the Guardians local authorities to execute those Acts in certain cases, it is necessary that their attention should be at once directed to this subject.

The Act has repealed the previous provisions which constituted the local authorities, and which prescribed the funds to be charged with their expenses, and has constituted those authorities afresh. Thus local boards of health, town councils, trustees or commissioners under Improvement Acts, are to be the local authorities within their respective districts. But in any place where no such authority exists, the Board of Guardians of the Poor for such place, or of the Union comprising it, shall be such local authority; and where there is no such Board of Guardians the Overseers of the Poor shall act as such.

Section 3 preserves, however, those local authorities consisting of the Highway Boards and the Nuisances Removal Committees, chosen in pursuance of the Nuisance Removal Act of 1855, which at the time of the passing of the new Act (which bears date the 6th August last) employed, or had joined in employing, a sanitary Inspector, so long as they continue to employ such Inspector, and as regards the Nuisances Removal Committee, so long as it shall be annually chosen in the manner required by the Act of 1855.

It is therefore incumbent upon the Board of Guardians to ascertain, as speedily as practicable, whether there be any such local authority as that adverted to acting for their Parish or Union, or any part of it. If there be any local authority as above explained acting for the whole of their district, their obligation and authority under the statutes for the Removal of Nuisances will not at present arise; but if there be no such authority, or if it extend to a part only of their own district, they must act within the whole or the residue of their district, as the case may be, in pursuance of those statutes.

The Board cannot in this communication set out in detail the duties which will now devolve upon the Guardians, nor the powers which have been conferred upon them as such local authorities, by the application of the former statutes to them; but the Guardians will no doubt refer to the various provisions contained in the statutes in question.

Section 4 of the new statute provides for the charges and expenses to be incurred by the local authorities in the Removal of Nuisances ; and as regards Boards of Guardians provides for five separate contingencies.

1. Where the Board of Guardians is the local authority for a whole Union.
2. Where it is such for two or more Parishes only, and not for all.
3. Where it is such for one Parish only in the Union.
4. Where it is such for part only of a Parish, together with the whole or part only of another Parish.
5. Where the Board of Guardians act for a Parish, and not for a Union.

The statute requires that the charges in all these cases shall be defrayed out of the poor rate of the place or places for which those charges shall have been incurred. As regards the fourth case, the Board of Guardians are to apportion the expenses between the part of the parish and the other parish or place ; and it is provided in the case where a part of a parish is to be charged, that the expense incurred by the Board of Guardians shall be defrayed by an addition to the poor rate, and shall be raised and paid in like manner as money expended for the relief of the poor.

By section 5 power is given to the Board of Guardians for a Union to appoint a committee or committees of its own body to act in one or more of the parishes for which it is the local authority. This Committee shall have full power of executing the Act within its district, unless its power be expressly limited by the terms of its appointment.

The expenses of such Committee are to be defrayed out of the poor rates of the places for which it is appointed, and in the case of any such appointment the expenses incurred for the residue of the Union are required to be defrayed as the expenses of a Committee.

When a Committee is appointed for the whole district of the local authority, the charges are to be contributed and paid as if such Committee had not been appointed, that is, as it appears to the Board, by the parish or parishes on whose account the expenses shall have been incurred, and in the proportion in which the same shall have been incurred in or for the several parishes or places.

By Section 9 the Board of Guardians are empowered to appoint or employ inspectors of nuisances, and to make such payments as they see fit for the remuneration and expenses of such inspectors. Upon this clause the Board will observe that the Board of Guardians must determine how to apportion the salary of the Inspector of Nuisances, having regard to the previous rules prescribed by the legislature. It will be necessary also that the Guardians should be careful to ascertain that the person appointed to act shall be legally competent to undertake the office. If, therefore, it be deemed advisable to appoint a Relieving Officer to be an Inspector of Nuisances, it will be necessary that an application should be made to this Board for their consent, in accordance with Art. 166. of the General Consolidated Order.

The new statute then proceeds to enact that the Board of Guardians shall be the local authority for executing the Diseases Prevention Act of 1855 within their district, and provides that their expenses shall be defrayed out of the common fund of the Union, or out of the poor rate of the parish where the same is not in any Union.

But the Board of Guardians may appoint Committees for the purposes of this Act in like manner, and with the like authority, and subject to the same provisions as to their expenses, as is above provided in regard to the Committees to be appointed for the Removal of Nuisances.

The Privy Council may, however, if they see fit, authorize any other local authority appointed for the Removal of Nuisances to be the authority for executing the Diseases Prevention Act in the place of the Board of Guardians.

It is necessary now to refer to two enactments calculated to be of much use to many Boards of Guardians. The first is contained in section 12, which enables them, where they are the authorities for executing the Diseases Prevention Act, to provide and maintain suitable carriages for the conveyance of sick and diseased persons residing within their locality to any hospital or other place of destination. The expense thereof is to be deemed an expense incurred in executing the said Act, and consequently will be chargeable upon the common fund in Unions. The Board think that the Legislature intended that this provision should not be limited to the period when the Board of Guardians are called upon to exercise their duties for the Prevention of Diseases under an Order in Council, but that it should be of general application.

The other provision is contained in section 14, and enables the Guardians of any Union or Parish not within a Union to employ one of their medical officers to inquire and report upon the sanitary state of their Union or Parish, or any part thereof, and pay a reasonable compensation for the same out of their common fund.

Hitherto the Board of Guardians have not been able to obtain any sanitary report, except as regarded the poor in receipt of relief, unless through the voluntary and gratuitous communications of their medical officer. But henceforth they will be empowered to employ and remunerate him for the information which he can obtain and render to them in peculiar emergencies when this information may be of great value, either in dispelling unfounded alarms, or in stimulating to exertion for the repression of local epidemic diseases.

In conclusion, the Board desire to remark, that except so far as this last clause extends, the statute has no operation in regard to the Boards of Guardians in the Metropolis, inasmuch as it is expressly provided that the Vestries and District Boards appointed therein under the 18 & 19 Vict. c. 120. shall continue to be the local authorities for the Removal of Nuisances, and for the execution of "The Diseases Prevention Act, 1855."

The statute contains some few other clauses, but they have no particular reference to the Board of Guardians.

W. G. LUMLEY,

Assistant Secretary.

ADMINISTRATION OF RELIEF IN SEVERE WEATHER.—CORRESPONDENCE
with the GOVERNORS and DIRECTORS of the POOR of ST. JAMES,
WESTMINSTER.

*Parochial Office, Poland Street, Oxford Street,
16th January 1861.*

GENTLEMEN,

I AM instructed by the Governors and Directors of the Poor to place myself in communication with you on the subject of the severe distress now undoubtedly prevalent among the resident poor of this parish. This distress, so far as relates to those who are upon the relief books, and are known as the out-poor, the Governors and Directors have done their best to alleviate by increasing their allowances; but there is a far more numerous class, to whom, they not having sought parochial assistance, no such relief has been afforded, and it is as to the power of the Governors and Directors legally to apply the poor rate to the aid of this class of persons that they desire to have the advantage of your opinion.

I beg to remind you; that the annual poor rate is made upon a careful estimate of the presumed expenditure, and that in this parish the autho-

rities are further guided in the amount to be raised by taking an average of the outlay of the five last preceding years. There is consequently seldom but little at the service of the Governors and Directors wherewith to discharge any further liability; yet, taking into account the necessity of the present case, they feel disposed to give relief in bread, soup, and fuel, and to charge the amount so expended upon the current year's rate. In making this distribution it would not be possible to stop to investigate claims beyond some inquiry as to each applicant's necessities and residence in the parish; indeed in dispensing this assistance it has been suggested that no hindrance should be cast in the way of recipients, by a feeling that they would thereby pauperise themselves; that the only requisite to entitle them thereto should be the presentation to the Governors and Directors of a recommendatory paper, filled up according to the inclosed form, and in fact that the aid so given should be in no way registered as parish relief.

Whether the Governors and Directors are legally authorized to seek out and relieve cases of distress in the manner proposed they consider to be a question on which they may fairly ask you to favour them with an opinion, and if that opinion should be against the strict legality of the proposition, you will probably be so good as to add, whether, having regard to the present emergency, and the angry expression of feeling on the part of the public and the public press as to the supineness of Metropolitan Boards of Guardians in duly attending to the wants of the poor, the strict rule of law may not be relaxed, and the suggested distribution of relief justified and allowed.

Requesting the favour of an early reply.

I am, &c.

*Poor Law Board, Whitehall,
19th January 1861.*

SIR,

I AM directed by the Poor Law Board to acknowledge the receipt of your communication of the 16th instant, in which, by direction of the Governors and Directors of the Poor of St. James, Westminster, you draw the attention of the Board to the distress which prevails among the resident poor of the parish, and you request the advice and opinion of the Board as to the course which the Governors and Directors should take with the view to relieve the wants of the poor in such parish.

The Board much regret the severe distress which exists among the resident poor of the parish of Saint James, Westminster, and it is satisfactory to them to learn that the Governors and Directors have already taken measures for the prompt alleviation of that distress.

The administration of relief is regulated in the parish of Saint James by a Local Act, and not by any Order of the Poor Law Board, and the extent of the power which the Governors and Directors possess to afford relief at the expense of the poor rates depends on the provisions of that Act, and of those of the 11 & 12 Victoria, cap. 91. s. 12., which confers upon them all the powers vested in Boards of Guardians under the Poor Law Amendment Act.

As regards the poor already on the relief books, the steps which the Governors and Directors have taken to alleviate the increased wants of that class, occasioned by the present inclement season, render it unnecessary for the Board to make any observations on that subject.

With regard to those who in ordinary times do not require assistance from the poor rates, but who, either from the stoppage of their usual means of employment, or from other circumstances, are unable to procure what their necessities at the present time require, the Governors and Directors will no doubt make special arrangements for providing prompt relief.

The Board are of opinion that the vicissitudes of the seasons, which create rather a temporary suspension of work than an actual permanent diminution of employment, ought not necessarily to cause able-bodied persons to have immediate recourse to the poor rates; but when, through a long continuance of inclement weather, their resources are exhausted, or even if, through improvidence, they should immediately become destitute, it will be the unquestionable duty of the Governors and Directors to give the necessary relief. Such relief can, in the opinion of the Board, be best afforded (particularly in the case of able-bodied single men) in the Workhouse, where they will be provided with food, shelter, and all that their necessities require. In cases which cannot be taken into the Workhouse, the Board are of opinion that a distribution of bread, soup, and fuel is the best mode in which out-door relief can be administered, and arrangements for the supply of such necessaries may very properly be made by the Governors and Directors, with whom rests the decision as to whether relief is required, and as to the amount of relief proper to be afforded. The Board, however, are of opinion that

the Governors and Directors ought not to give such relief indiscriminately and without due inquiry, and that they should appoint, if requisite, additional officers, who may assist their present relieving officers in making such inquiries and distributing such relief as may be necessary.

The relief should also, if possible, be accompanied, in the case of an able-bodied man, with a task of work.

With regard to the aged and infirm, the Board are well aware that no recommendation from them is needed to ensure a careful attention to the wants of that class of claimants, and that the Governors and Directors will cheerfully supply all that their necessities and infirmities require.

The Board direct me to add, however, that any assistance granted by the Governors and Directors out of the poor rates can only be regarded legally as parochial relief, and must render every person receiving it liable to all the incidents which the acceptance of relief brings with it.

In conclusion, the Board direct me to state that the Governors and Directors will, in granting relief, no doubt be careful to distinguish as far as possible cases of simulated from cases of real destitution.

No. 3.

ADMINISTRATION OF RELIEF IN SEVERE WEATHER.—REPORT OF ANDREW DOYLE, ESQ., POOR LAW INSPECTOR, to the POOR LAW BOARD.

1861.

I HAVE already reported to the Board generally, that, so far as this district is concerned, there is no foundation for the statement that "the Poor Law has broken down" or has been found at all insufficient to meet the distress caused by the late inclement weather.

Omitting from the Unions of my district the incorporations, from which I do not receive returns, a comparison of the state of pauperism for the months of January 1860 and January 1861 exhibits this remarkable result :—

In thirty-four Unions out of sixty the pauperism appears to have been about stationary. In nineteen Unions there has been a decrease in the pauperism of January 1861 as compared with January 1860, while in six only has there been an increase.

There is no doubt that in every Union in my district the ordinary employments of the working classes were interfered with to a greater or less extent, being with large numbers in some Unions wholly suspended. It is a very striking fact, that, notwithstanding this great pressure upon the resources of the people, there should be only six Unions out of sixty, the returns of which I have examined, in which there appears to be an appreciable increase of pauperism. In nine-tenths of the Unions of this district, therefore, there is not only no pretence for saying that the Poor Law has broken down, but the facts justify a reasonable assumption that improved habits, attributable, in a great measure, to the operation of this law, have enabled the labouring classes to struggle successfully through a crisis of long duration and of unusual severity.

It is true that in several Unions in which there has been no increase in the numbers of poor relieved by the Guardians there has been a large expenditure of relief in charity. From this fact it has been assumed that the machinery of the Poor Law has been proved to be inadequate to meet the difficulty. I had means of personally observing the operation of the

Poor Law in those districts in which the distress was most severely felt ; and in no Union, I can confidently say, did it fail to afford prompt and sufficient relief in all cases in which application for relief was made. Here is a comparative statement of the pauperism and expenditure in the six Unions which exhibit an increase in January 1861 over January 1860 :—

UNIONS.	Average Number of Out-door Poor relieved weekly.		Out-Relief for Four Weeks in January 1861.	Out-Relief for Four Weeks in January 1860.	Increase in the No. of Paupers.	Increase in Out-Relief.

The mode of giving relief adopted in these Unions was to offer work to the able-bodied heads of families, and in return for the work to give relief sufficient to maintain the families. I annex letters from the Clerk of the Wolverhampton Union and from the Master of the Workhouse detailing what was done. This is one Union in which it was publicly asserted that “the law had broken down,” and in which a great deal of gratuitous relief was given by a committee formed for the purpose of collecting and distributing donations. I visited Wolverhampton during the pressure of distress, and could not ascertain that any difficulty had been experienced by destitute persons in obtaining relief, upon the condition, in the case of able-bodied, of performing a task of work. In Macclesfield, Walsall, and Wirral, which I also visited, I found the same system organized, though in the two latter too tardily to prevent a good deal of imposition. The Clerk of the Wirral Union, writing to your Board on the 1st instant, says, “On Saturday the 19th the Out-door Labour Test was carried into full operation at Birkenhead, which was the means of greatly reducing the numbers of able-bodied poor who sought for relief on account of the severity of the weather.” A letter which I annex from the Relieving Officer of the Walsall Union gives an account of the steps taken by the Guardians to relieve the large number of able-bodied who had been thrown out of work. He states that out of 100 who applied for relief, and who were offered it upon condition of doing a task of work, only 16 availed themselves of the offer, and that of 90 orders of admission to the Workhouse only three were accepted. The letter of the Relieving Officer of this Union is well deserving of attention. A letter addressed by the Clerk of the same Union to the Board states, that a large number of men who applied for relief refused to take home a reasonable quantity of oakum to pick as a task of work for the relief given, and that consequently they obtained no relief.

I entertain very little doubt that the families of many of those who refused to perform a task of work for the relief offered became recipients of the public charity. In two cases the magistrates committed men to gaol for obtaining parochial relief while in receipt of ample wages.

If it could be shown that Boards of Guardians had declared their inability to afford relief, or for any cause had refused relief or imposed unreasonable terms upon the giving of it, it might with some show of justice be said that the administration of the law had "broken down." But in the six Unions in which unusual distress prevailed in this district all applicants were relieved; those with families out of the Workhouse. The distribution of public charity was in no case undertaken, because "the law had broken down." The capability of the law to meet this crisis was not fully tested. If it had been I see no reason to doubt that every application for relief would have been carefully inquired into, and all cases of real distress relieved.

7th February 1861.

ENCLOSURE No. 1. to MR. DOYLE'S REPORT.

SIR,

Wolverhampton Union, 30th January 1861.

At our Board meeting of 4th January we had many applications for relief by able-bodied men, and it became evident that if the frost continued we should have very many more. The Workhouse was then unusually full, and the Board, therefore, resolved to relieve the able-bodied labourers by offering them work at stone-breaking, and paying them daily. For the first six days our highest number was 8. We then rose to 50; in a few days to 100, 120, 150, and 170. We now found that our stock of unbroken stone would be worked up in a few days, so the pay-room of our Relieving Officer (which had a stove in it) was used as a workroom for picking oakum, and in it we employed 120 men, the most robust being still employed in the stone yard. Another room was marked out for oakum picking. Permission was sought and obtained to break up for road-mending some large heaps of furnace cinders. More hammers, shovels, barrows, &c. were quickly procured, and rough stone for breaking was ordered by the first available means into our stone yard.

As oakum-picking yielded to us scarce any profit, the men were set to stone-breaking so soon as we had material sufficient to employ them, and the thaw coming on the cinder-heaps were not wanted.

Before the thaw most of our men were bricklayers' labourers, who are now mostly at their regular employment. We have still about 70 at work, mostly labourers about the ironworks, and farm labourers. Our pay now varies from 6d. to 1s. 6d. according to family, &c.

A considerable subscription was raised for the relief of the distress, bread and oatmeal being generally the form of relief. We are not aware that this had any influence upon the numbers seeking relief from us; our numbers in fact continued to rise while this voluntary relief was being distributed.

The conduct of the men was good throughout, the labour was steadily performed, and though the pay was very small it was generally accepted in a proper spirit. Throughout the whole period no one was refused employment, and if our stock of stone had been adequate to the emergency the return from the labour would have repaid a large part of the relief given.

To institute on an emergency employment for so many men required much energy on the part of our Board, and to superintend it was required much willing labour by our usual staff of officers, who managed from first to last without extra assistance.

ENCLOSURE No. 2. to MR. DOYLE'S REPORT.

*Union Workhouse, Wolverhampton,
2d February 1861.*

SIR,

IN compliance with your request for information respecting the recent distress in this Union, I beg to state that the Guardians at their meeting on the 4th ultimo, finding that on account of the severe frost and a depression in the general trade of the district the number of applications on the Relieving Officer's books from able-bodied men out of work were becoming numerous, they at once determined to afford such class of applicants relief out of the Workhouse, and to open a stoneyard on the Workhouse premises, where the men should be required to break stone as a test of destitution, the men to be relieved each day according to the work done and the number of children dependant upon them ; the smallest sum per day being 1s. ; the largest 2s.

The stoneyard was opened the same day, and six men commenced work, the number increasing in the course of a week to 50, and in a few days afterwards to 170, the highest number at work at one time. The change in the weather gradually reduced the numbers up to Saturday the 26th ult. to 140, and on the following Monday to 60. This number has again increased to 90, the number relieved to-day.

The total number of men thus employed and relieved has been to this date 278. 36 of these only stood the test one day, and 23 only two days ; the others ranging from 2 to 29 days, i.e., up to the present time. All applications are made to the Relieving Officers in the usual manner, who, after inquiry, and entry of the case, give an order to the Superintendent of Labour to set the men to work. Each evening I call over the list, examine the work, and enter each man's relief opposite his name, and the Relieving Officer then pays the money. During part of the time, for want of stone, the men were employed at oakum picking.

The highest number of inmates in the Workhouse has been 650 ; more than at any former period, except for a very short time in the winter of 1857-58, when the highest number was 670.

No person has *applied* for relief without his application being promptly attended to, and the necessary relief afforded, and no applicant in distress from the causes first mentioned has been ordered into the Workhouse.

Little or no difficulty has been experienced in thus relieving all applicants, and, with the exception of an assistant to the Relieving Officer of the Woverhampton district for a short time, this has been done by the usual staff of officers.

These arrangements having been decided upon sufficiently early, and so quickly carried out, the distress in this Union has been fairly and efficiently relieved, no well-grounded complaint (if any) having been made to the contrary. One good effect of these arrangements, and their being made early, has been to draw the well-disposed sufferers out of the streets, and thus prevent the idle, disorderly, and hereditary pauper class joining, and making use of numbers of hard-working men for their own benefit, by raising a clamour, and exaggerating the distress, in order the more easily to impose upon the public, and obtain indiscriminate relief.

The numbers submitting to the test for one and two days only prove the value and necessity as also the efficiency of the test.

The conduct of the men throughout has been very good ; the large majority who were really destitute, and unable to obtain employment, have willingly and steadily applied themselves to work, new to most of them, in a very deserving manner, and thankfully received the small sum paid at the end of a day's labour, more laborious to many of them than ordinary callings.

I have to apologise that the pressure of duties has prevented me answering your note so soon as I otherwise should have done.

And I am, &c.

Poor Law Inspector,

ENCLOSURE No. 3. to MR. DOYLE'S REPORT.

*15, Goodall Street, Walsall,
31st January 1861.*

SIR,

I BEG to acknowledge the receipt of your letter of the 29th instant, and regret that my duties yesterday prevented me from answering it by return of post.

In reply to your first inquiry as to the extent of the distress, I have to report that about 430 able-bodied men have received relief during the last five weeks, and that the cost of such out-door relief will amount to about 200*l*. You will see from the Form A. return the great increase as compared with the corresponding week of last year.

In reference to your second inquiry, as to the arrangements made to meet it, and the effects of such arrangements, I have to say, that the Guardians, until Wednesday the 23d instant, could not make arrangements to employ the men. The committee then determined to set them to oakum-picking, to be given out at the Workhouse in quantities according to the number of their families, to be picked at their own homes, and to be paid at the rate of 2*d*. per pound. I issued the orders for work, and paid the men the following night, when it was brought in. I may add that the scale of relief was such as to enable a man, with wife and five or six children, to obtain about 12*s*. per week; and a calculation was made that even at this liberal scale of relief about 1,000 persons could be relieved weekly at a cost of 35*l*. It is only fair to state that "the thaw" had commenced before this had fully come into operation, and that therefore many of them had commenced work again; but I think it is a striking proof of the good effects of the Labour Test, that out of about 100 men that applied last meeting of the Board for a continuation of relief, and were instructed to come to me in the afternoon for orders to work, 16 only of that number availed themselves of the offer, and 8 of those on the following night declined taking more, stating "that *they hoped to get work on the Monday morning.*" And this day there are only 5 who have the oakum out, though I have still during this present week had many applications for relief, stating that they could not get work.

In reference to your third request, I have to observe that the 29th ultimo was the date of my reporting to the Board of Guardians the first lot of able-bodied cases (about 15 in number). I suggested on that day that orders of admission to the Union Workhouse should be the test given, as I considered it was too soon to give out-door relief; the Board, however, declined to act upon my suggestion, and the following week the number of that class had increased to 40. I further stated that I felt sure that such increase was partly owing to the fact of relief having been given the previous week, and suggested that work of some kind should be given as a test of destitution. The Board could not then fix upon any kind of work, and still availed themselves of "Article 14 of the Labour Test Order." The following week the number of applications amounted to 180 (the day you attended the Board), and a committee then appointed to ascertain the best kind of work to be given. The gravel hole spoken of proved to be far too small, for not more than 30 or 40 men could have been set to work at first; and I recommended that unless a proper place could be found where a true and efficient test of labour could really be

carried out, it would be better not to commence it at all. Other difficulties also presented themselves as to the amount to be paid to the owner of the land, and that project was abandoned; and the committee determined to set them to pick oakum, in the manner I have before stated. I feel quite convinced that had a test of work been given in the first instance the pressure would not have reached anything like the extent it has, and it must be regretted that a mode of employment was not then available or carried into effect sooner, both in justice to the ratepayers and the poor themselves, for I feel certain that a considerable sum would have been saved, and that many who have now become paupers would not have applied if it had been generally known that work must be done before relief was afforded.

In speaking of the test of the Workhouse in the former part of this letter I ought to have stated, that during one week I gave orders of admission for upwards of 90 persons, of whom only 3 went in. I fear that the effects of the pressure will long be felt, and we have already a great addition upon the medical books.

I trust that I have sufficiently answered your inquiries, and if you should desire any further information, I shall only be too happy to give it to the best of my ability.

I have, &c.,

Andrew Doyle, Esq.,

ENCLOSURE No. 4. to MR. DOYLE'S REPORT.

*Wirral Union, Relieving Office, Birkenhead,
8th February 1861.*

EMPLOYMENT for labourers in this locality is principally of an out-door character, viz. :—

- 1st. In loading and discharging vessels.
- 2d. In excavating for docks and other public works.
- 3d. In the building trades generally.

The men employed by shippers, besides being liable to be out of work from the same cause as other labourers, are often stopped, firstly, by a continuance of easterly winds which prevent vessels entering the river; secondly, by a deficiency in the supply of coal, which forms an important branch of the trade of this place. In consequence of recent alterations in the docks these men had been only casually employed for a considerable time to the commencement of the late frost, and were but ill prepared for such a visitation; they must, however, have practised considerable economy, as they were amongst the later applicants for relief. When in full work their earnings are 3s. 9d. to 4s. per day.

The earnings of labourers employed in excavations are less (averaging 2s. 8d. per day), consequently they have not the same opportunity of saving as others, and of course have a better reason for applying for relief. On the whole, these men when in employment support their families in much greater comfort than either of the other classes I have alluded to.

Men connected with the building trades, such as hod carriers, &c., had an equal opportunity with the other classes of laying up a trifle, but on this as on former occasions they had totally neglected doing this.

As a class, the latter persons are the most improvident and debased of any that I come into contact with. While earning large wages in the summer they will *strike* on the slightest pretence, and the moment that they or their families are attacked by sickness, or when some similar calamity overtakes them, they have no alternative but to become applicants

for relief. A great number of these men are in the habit of forestalling their earnings by obtaining provisions, &c. from small shopkeepers on credit, but always contrive (after paying their rent) to reserve sufficient money to purchase drink, in the indulgence of which they are generally associated with their wives.

During the frost the "Masons Union" acted in a very discreditable manner by refusing to allow men connected with their "Union" the privilege of supporting their families by working for less than a full day's "wage," regardless of the amount of work they would be enabled to perform in consequence of the stone being frozen. As an evidence of this I have attached to this report a letter I received from an extensive employer in this town.*

The fact of these different classes of labourers being out of employment was at once evident, since they could not follow their occupations during the frost. The Workhouse being full, and there not being any out-door labour test available at the time, out-door relief could alone meet the cases. Even had there been sufficient accommodation in the House, these parties were not subjects to be tested by it. It would indeed have been cruel to have asked them to break up their homes, and thus ruin their future prospects, and destroy that spirit of independence which has sprung up during the last seven years amongst the labouring classes in this neighbourhood. Under these circumstances out-door relief was given in the following manner.

Applications were required to be made between the hours of nine in the morning and two in the afternoon by the *male* head of each family; he was afterwards visited at his own residence, and the necessary amount of relief fixed. At six in the evening, one or more members of the Board of Guardians attended at the Relieving Office to meet the different applicants, hear the officers report on each case, and see the relief given or refused, as the case might be.

The number of the labouring classes affected by the severity of the weather was about seven hundred, as nearly as I can estimate.

In the winter of 1859-60 a subscription was raised here for benevolent purposes, but it not being needed the amount was placed in the bank, and on the commencement of the late frost the committee at once proceeded to distribute it to persons recommended by the subscribers and others. Large sums were also collected to augment the fund, the parties contributing being impressed with the idea that by so doing they would be able to provide against an alleged deficiency in the Poor Law, and supply a class of persons who would not apply to the Guardians for relief.

* The Letter referred to is dated 12th January 1861, and is as follows :—

"You are aware that masons cannot earn their wages in the time of frost in consequence of the stone being frozen, yet it is not frozen so much that it cannot be worked to a certain extent.

"On Saturday last some of the masons in my employ made a proposition to me, through my foreman, to commence work at 9 o'clock in the morning and work until dark, for which they would be satisfied with half a day's pay, as they said they were anxious to earn something for their families. To this I consented, and it was arranged that they should commence on the Monday morning.

"On Monday I found there were none of them working, and on inquiry I learned that the club had threatened that if they commenced on those terms they would fine each of them two pounds, and had ordered that if they worked at all it must be for a full day's pay, notwithstanding the state of the stone, and the starving position of the men and their families.

"However, on Wednesday four of them commenced work, but owing to a pressure being brought to bear upon them by the club they all left off on Friday at noon.

"I would have made this the subject of an investigation before the magistrates on a charge of intimidation, but I found I would have great difficulty in proving the case, owing to the fear entertained by the men of the club."

The frost set in on the 17th of December, and bread, &c. was given out to applicants on the 19th, and in consequence of the very indiscriminate way in which it was distributed a great clamour was raised, and the shops of tradesmen were thronged by men and women seeking recommendations, numbers of them being totally unknown to those they applied to.

Occasionally persons who had been recommended were refused relief in consequence of the number of notes given by the subscriber, and at the same time others were relieved owing to the position of the parties who had recommended them, both modes showing an entire disregard to the necessities of the applicants.

A great amount of dissatisfaction was exhibited by the public generally, and ultimately it was discovered that the committee had been feeding the wrong persons, thus proving that stray charity is insufficient to meet exigencies of this character.

It was also found that the wives of many of the men who had been applicants at the Relieving Office were daily receiving food from this committee, and it, therefore, became necessary to test the applications made here, and I accordingly made arrangements with the "Road and Improvement Commissioners" of Birkenhead to supply a quantity of stone to be broken into macadam. The conditions were, that the stone was to be carted to the yard at the back of the Relieving Office, and when broken removed free of charge; thus no profit was derived by the Guardians.

We began to give out-door relief on the 24th of December, and in the first week afterwards 262 men, 256 women, and 755 children were relieved at a cost of 50*l.* 8*s.* In the two following weeks 372 men, 359 women, and 1,010 children were also relieved at a cost of 96*l.* 10*s.* 8½*d.* I should observe that during these three weeks we had no labour test, but throughout the next two weeks it was in full operation, and 119 men with families, consisting of 107 women and 281 children, accepted employment at a cost of 25*l.* 1*s.* 1½*d.*, making a difference of 71*l.* 9*s.* 7*d.* as compared with the previous two weeks, thus showing the effect of the test as a means of reducing the expenditure.

It may be worthy of note, that out of 50 applicants for relief who were in the yard at one time, only 5 accepted the employment offered to them.

The men were required to work from eight in the morning until three in the afternoon, at which hour they were paid (in kind) at the rate of 1*s.* per day for a married man with no family; where there were two children 1*s.* 4*d.*, four children 1*s.* 8*d.*, and six children 2*s.* per day. The highest number of men who went to work on any one day was 60, and the lowest 14.

What I have observed on this occasion has fully confirmed my previous opinion, that the labour test offers an opportunity to the person applying for relief of exhibiting his independence by giving his labour in exchange for his family's support, and I am also satisfied that this test is not more valuable as a check upon imposition than it is for its moral influence. Considering the different causes operating so as to frequently throw labourers in this locality out of employment, I think it will be apparent that the Guardians ought not at any time to be without the means of giving employment to them in some such way as has in the present instance been resorted to.

MATTHEW M'HERNEY,
Relieving Officer.

IRREMOVABLE POOR.—REPORT of the SELECT COMMITTEE appointed on the operation of the Act 9 & 10 Vict. c. 66., which enacts that no POOR PERSON shall be REMOVABLE who shall have resided Five Years in any Parish, and of the Acts 10 & 11 Vict. c. 110., and 11 & 12 Vict. c. 110., which enact that the RELIEF given to such IRREMOVABLE PERSONS shall be charged upon the Common Fund of the Union.

RESOLUTIONS.

1. THAT the operation of the Act (9 & 10 Vict. c. 66.) is beneficial to the poor in mitigating the hardships necessarily incidental to any law of removal.

2. That the period of residence, in order to acquire a status of irremovability (if that status be continued), may, with advantage to the poor, be reduced from five years to three.

3. That the area of residence necessary for acquiring a status of irremovability (if that status be continued) may also, with advantage to the poor, be extended from the parish to the whole Union.

4. That orphan children, who may on the death of their surviving parent be removable, shall have the status of irremovability which their surviving parent may have acquired.

5. That the cost of the maintenance of such lunatics in asylums as are now chargeable to a parish within a Union should be charged on the common fund of such Union.

6. That the contributions of parishes in Unions to the common fund should be based upon a consideration of the annual rateable value, and the amount of the population combined in one sum, by adding the amount of the population, according to the last census, to the amount of the parochial assessment, and by taking the result as the assessment in pounds sterling.

The Committee desire further to report, that during this inquiry evidence has been submitted to them of some peculiar evils which attend the removal of Irish poor when chargeable in England. These chiefly relate to the mode and form of conducting removals, and they would, doubtless, be lessened by the adoption of the foregoing Resolutions, as greater facilities of becoming irremovable (by limiting the period and extending the area of residence) would be afforded to the poor.

The Committee, however, in order to prevent entirely the recurrence of the evils referred to, would strongly recommend that legislative effect should be given to the following precautions; viz.—

(a.) That no warrant shall be issued for the removal of any poor person from England to Ireland, except by justices assembled at a petty session, or by a stipendiary magistrate.

(b.) That the said justices or magistrate shall not issue the warrant without seeing the head of the family to be removed, and being satisfied that each of the parties sought to be removed is in such a state of health as not to be liable to injury by removal.

(c.) That a statement to this effect shall be inserted in the warrant, with the name and age of every child under the age of 16 years so ordered to be removed, together with the name of the place where the justices find the pauper to have been born or to have resided.

(d.) That during the winter months no woman, or child under the age of 14, shall be sent across the Channel as a deck passenger.

(e.) That in all cases of removal of Irish paupers, the removing parish shall be bound to defray the cost of the removal of any person ordered to be removed to the place in Ireland which, upon evidence before the justices, shall appear to be the place of birth or residence of such person.

(f.) That a copy of the warrant and the depositions shall be sent, if required, to the Board of Guardians in Ireland of the Union to which the removal is to be made.

The Committee desire to express their opinion that the Laws of Settlement and Removal should receive the early attention of the Legislature.

No. 5.

POOR RATE RETURN.—REMARKS prefixed to the Return made to Parliament of the Poor Rates levied and expended for the Year ended at Lady-day 1860. [No. 383. (D.) Sess. 1860.]

The present Return is the *fifty-third* annual publication of the Poor Rate Returns. Series of Returns.

This Return is, in respect of the number of places which it represents, the most complete of the Statistics of pauperism; for in it the sums levied and expended as Poor Rates throughout the whole of England and Wales are exhibited; excepting only some small Parishes, which are stated by the overseers either to have “No poor,” or to make no levy “yet.” Parishes included in the Return.

The number of Parishes maintaining, or liable to maintain their own poor, is printed in the following Table, which relates to the parochial year under consideration :—

Authority.	Description.	Number of Parishes.
Poor Law Amendment Act -	588 unions - - - -	14,069
	22 single parishes - - - -	22
Local Acts (various) - -	21 unions - - - -	320
	15 single parishes - - - -	15
Gilbert's Act (22 Geo. 3. c. 83) -	12 unions - - - -	188
	2 single parishes - - - -	2
43d Elizabeth, cap. 2. - -	118 parishes (including 19 parochialized places now first returned as having raised a poor rate).	118
	TOTAL - - - -	14,734

“Extra-parochial” places were not, heretofore, liable to maintain their own poor; but they are now becoming Parishes, under the operation of 20 Vict. c. 19. (Extra-parochial Places Act.) The ultimate addition, however, which this will make to the existing Parishes is not at present known. In addition to the 19 parishes entered above, 59 have been returned as having no Poor. Parochial-ization.

Valuations
to the Poor
Rates.

The net annual value of property assessed to the Poor's Rate has been returned in respect of four parochial years. "The Gross Estimated Rental" is also returned for the last of these years.

* The details of these Valuations will be found in the following papers, printed by order of the House of Commons, viz., No. 235 "Real Property," 1842; No. 735 "Poor Rates, &c.," 1848; No. 539 "Poor Rate Assessment," 1852; No. 63 "Population, &c. of Parishes," 1853; and No. 251 "Population, Inhabited Houses, &c.," 1859.

Increase in
rateable
value.

It is satisfactory to observe, that in the course of fifteen years, from 1841 to 1856, the net annnal value of rateable property has increased 9,300,241*l.*, or 14'9 per cent. The yearly rate of increase has been 620,016*l.*, or 1 per cent., very nearly. The rateable value, according to this statement, is 16½ per cent. below the "Gross Estimated Rental."

diture in
1858, 1859,
and 1860.

The Returns, in a contracted shape, are exhibited in the next Table, for the last three years, with the rate per head, on the estimated population, of the amount levied as Poor's Rate, and of the amount expended in relief :—

It has already been pointed out in previous returns that, while the cost of relief has been falling, the expenditure for "all other purposes" has been rising; a similar remark is applicable to the present case, as it will be observed that between 1860 and 1858 the *decrease* on the former item was 423,578*l.*; the *increase* on the latter, 59,824*l.*

Large pro-
portion of
expenditure
for purposes
uncon-
nected with
relief.

Four-fifths of the expenditure, described in the last Table as for "All other Purposes," consists of payments which have no connexion whatever with relief to the poor. This part of the Poor Rate Expenditure, which is foreign to the object originally contemplated in the enactment of the rate, has greatly increased since the passing of the Poor Law Amendment Act in 1834, in consequence of the imposition of new and the augmentation of old charges. The next Table exhibits, separately, all the charges referred to, so far as the returns permit. The heaviest item is the disbursement in respect of the "County, Hundred, or Borough Rate, or Police Rate." The charge under these heads has nearly *trebled* in twenty-six years.

Table of Expenses unconnected with Relief.

In 1860 considerably more than *one fourth* of the whole Poor Rates levied was expended for purposes unconnected with relief to the poor. Besides the charges here shown, there are some others paid out of the Rate, but which are not discriminated, such as the expenses incurred for sanitary purposes, and the cost of providing new burial grounds.

Principal Charges which constitute Relief to the Poor.

The principal heads of expenditure, which constitute "Relief to the Poor," are shown in the next Table, together with the average price of wheat for the three years.

The total expenditure for relief, and the constituent amounts, so far as they can be discriminated under six heads, are shown in the next Table, for each division of the kingdom, during the year ended at Lady-day 1860 :—

The column in the Return, which succeeds that of "Total Expenditure," contains the expense of *Medical Relief* only; this consists of salaries to the Medical Officers; extra Medical Fees paid to them under the General Consolidated Order; also, the cost (if any) of medical and surgical appliances, and drugs. The sums in this column are not additional to those given in Column 4. § A, of the Return; because, the various items of Medical Relief are included in sub-columns (e) or (f), as forming a portion of the "Relief to the Poor:" the "Medical Relief" is printed separately, as indicating an important and special subject of Poor Law administration.

The sums expended under this head during the three last years were as follows :

For 1857-58	-	-	-	-	£ 230,597
1858-59	-	-	-	-	233,124
1859-60	-	-	-	-	236,339

Twenty-six Unions and single Parishes, chiefly Metropolitan, are combined into School Districts; the contributions which each Union makes to the treasurer of its district are included in the other items of relief, and, as such, entered in the proper columns of the Poor Rate Return; this, then, like the Medical Relief, does not represent any additional expenditure, having been heretofore properly included in the amounts printed opposite to the respective Unions concerned, at pages 16, et seq.*

* See Parliamentary Paper.

The sums contributed by each Union to the School District; and, the sums expended by each district and for each Union during the parochial year 1859-60, are contained in the subjoined Table:—

IN-MAINTENANCE AND OUT-RELIEF.—REMARKS prefixed to Return made to Parliament of In-maintenance and Out-relief for the Half Year ended Lady-day 1860. [No. 208 (c. 1.) Sess. 1859.]

THE Returns of In-maintenance and Out-door Relief, printed at p. 18, and *seq.*,* have been received from 646 Unions and single Parishes under Boards of Guardians ; but two of that number, namely, Shrewsbury, and Montgomery and Pool, give the cost of In-maintenance only.

Number of Unions returned.

The amount expended in the 646 Unions and Parishes during the half-year was, for—

In-maintenance.	Out-door Relief.	Total.
£ 482,218	£ 1,410,555	£ 1,892,773

The population of the places referred to was 17,670,938, according to the Census of 1851 ; the entire population of England and Wales then being 17,927,609.

The sum expended for irremovable paupers can be shown for 607 Unions and Single Parishes only, as the other places keep no separate account of their disbursements in respect of this class of poor.

Irremovable Paupers.

The 607 Unions and Parishes contain about 15-17ths of the entire population of the Kingdom ; the sum expended in them for relief during the half-year was, in respect of—

	In-maintenance.	Out-door Relief.	TOTAL.
	£	£	£
Irremovable Paupers -	65,172	333,264	398,436
Other Paupers -	311,100	971,355	1,282,455
TOTAL -	376,272	1,304,619	1,680,891

The cost of relief to the Irremovable Paupers was 31·1 per cent. on the cost of relief to the other Paupers during the half-year ; but during the half-year ended at Lady-day 1859, the ratio was 30·1 per cent. ; so that the proportion has risen 1·0 per cent. during that period.

The following Table is a comparative statement of the Expenditure for the half years ended at Lady-day 1859 and 1860 in 646 Unions and Single Parishes.

Paupers
relieved.

The paupers relieved on the 1st January, that is, on a day which falls on the middle of the Lady-day half year, are taken as a fair representation of the average number relieved during the time which elapses between the 29th September and 25th March.

1860	646	850,896	16,647	1·9	645	134,126	3,305	2·4

The cost of In-maintenance and Out-door Relief is about 72 per cent. of the entire expense of "Relief to the Poor:" the other items of relief are, "Cost of Lunatics in Asylums;" "Workhouse Loans and Interest;" Salaries and Rations of Officers," and "other expenses immediately connected with relief."

IN-MAINTENANCE AND OUT-RELIEF.—REMARKS prefixed to the Return made to Parliament of In-maintenance and Out-relief for the Half Year ended Michaelmas 1860. [No. 383 (c.) *Session* 1860.]

Number of
Unions re-
turned.

THE Returns of In-maintenance and Out-door Relief, printed at pp. 18-60*, have been received from 646 Unions and single Parishes under Boards of Guardians; but two of that number, namely, Shrewsbury, and Montgomery and Pool, give the cost of In-maintenance only.

The amount expended in the 646 Unions and Parishes during the half year was, for—

In-maintenance.		Out-door Relief.		Total.
£ 474,236	- -	£ 1,441,553	- -	£ 1,915,789

The population of the places referred to was 17,672,475, according to the Census of 1851; the entire population of England and Wales then being 17,927,609.

Irremovable
Paupers.

The sum expended for Irremovable Paupers, can be shown for 604 Unions and single Parishes only; as the other places keep no separate account of their disbursements in respect of this class of poor.

The 604 Unions and Parishes contain about 15-17ths of the entire population of the Kingdom; the sum expended in them for relief during the half year was, in respect of—

	In-Maintenance.	Out-Door Relief.	TOTAL
	£	£	£
Irremovable Paupers -	65,280	340,912	406,192
Other Paupers - -	296,847	990,261	1,287,108
TOTAL -	362,127	1,331,173	1,693,300

The cost of relief to the Irremovable Paupers was 31·6 per cent. on the cost of relief to the other Paupers during the half year; but during the half year ended at Michaelmas 1859, the ratio was 30·1 per cent.; so that the proportion has risen 1·5 per cent. during that period.

January 1859, arises from the circumstance of those persons chargeable to the Poor Rates and maintained by returned for the first time. compared with July 1858, that many unions included in their statements of the number of paupers relieved lunatics in asylums and licensed houses, paupers receiving medical relief only, and non-resident paupers. 1st January (or July), and therefore entered in the in-door and out-door totals on that day; also those non-accounts of the unions to which it was chargeable. the Eleventh Annual Report, where the particulars are given in reference to twenty-one periods commencing January 1840.

**WEEKLY RETURNS OF PAUPERISM FOR THE YEAR
ENDING JANUARY 1861, AND FOR THE CORRE-
SPONDING WEEKS OF THE PREVIOUS YEAR.
[No. 208. (A. X. & XI.) 1859 to No. 383. (A. to A. IX.) 1860.]**

**MEMORANDUM as to the ARRANGEMENT of the WEEKLY RETURNS
of PAUPERISM.**

THE Returns of the Number of Paupers relieved on the *last day* of each Week do not include the "Lunatic Paupers in Asylums and Licensed Houses," nor the number of "Vagrants" relieved. These classes form only a small portion of the entire pauperism of the country. According to the latest Returns (1st January 1860), the number contained in the two classes was 2·2 per cent. of the total pauperism.

The Pauper Lunatics in Asylums are not generally subject to variations in number to the same degree as the other classes of Paupers, and the number of Vagrants relieved by the Unions throughout the country has become too small to need a return so frequently as once a week. These considerations led to the exclusion of the two classes.

There are at present 14,736* parishes in England and Wales maintaining or liable to maintain their own poor: returns of pauperism are received weekly in respect of 14,450 of that number; 286 parishes, incorporated under Gilbert's Act, or still under the provisions of the 43d Elizabeth, make no return of the number of paupers which they relieve.

The Returns are arranged under eleven divisions. The Union-counties which fall under each are shown in the following view:—

I. THE METROPOLIS. 1.*Middlesex (part of). 2.*Surrey (part of). 3.*Kent (part of).	IV. EASTERN. 14. Essex. 15. Suffolk. 16. Norfolk.	VII. NORTH MIDLAND. 28. Leicester. 29. Rutland. 30. Lincoln. 31. Nottingham. 32. Derby.

* Many places not heretofore liable to maintain their own poor are becoming parishes under the operation of the Extra-parochial Places Act; to what extent this will ultimately increase the number of parishes in England and Wales cannot, at present, be stated; since the publication of the Return for December 1858, 78 new parishes have been recorded here.

The following is a Tabular Statement of the Number of Unions and Parishes ; and the Area and Population ascribable to each Division ; but so far only as represented by the Weekly Returns.

QUARTERLY STATEMENT AS TO PAUPERISM.—LADY-DAY 1860.
(*Paupers in Lunatic Asylums and Vagrants not included.*)

The Return now published completes this portion of the Series for the parochial year 1859-60. The four following Tables are given in continuation of those prefixed to the monthly publication for December last.

The Tables are—

- 1st. ENGLAND and WALES ; the pauperism in the consecutive weeks of the quarter.
- 2d. _____ the comparative pauperism of the quarter.
- 3d. NORTH MIDLAND, NORTH WESTERN, and YORK DIVISIONS ; the comparative pauperism of the quarter.
- 4th. THE METROPOLIS ; the comparative pauperism of the quarter.

1. In the 1st Table each week is compared with the one immediately preceding it. The last week of the parochial year is higher than the last week of the Christmas quarter by 8,153 paupers. But the maximum number was reached in the last week of February, namely, 844,463.

2. The next Table, like the corresponding ones published for the last four quarters, continues to exhibit considerable diminution in the pauperism on a comparison of 1860 with 1858 and 1859, respectively.

The paupers in receipt of relief on the last day of the last week of March were—

In 1858	-	-	-	-	-	952,201
„ 1859	-	-	-	-	-	855,753
„ 1860	-	-	-	-	-	834,920

The paupers in 1860, as compared with those in 1859, had decreased 20,833, or 2·43 per cent. ; but compared with 1858 they had decreased 117,281 or 12·32 per cent.

. The numbers given for 1858-59 and 1859-60 respectively, differ slightly from the totals entered in the returns for January, February, and March; this arises from the circumstance of Alverstoke being excluded from Table II., as that place was not in the Returns for 1857-8.

3. The third Table comprises the three divisions of England and Wales in which the principal manufactures are carried on. Taking the returns of paupers relieved on the last day of the last week of March, the numbers were—

In 1858	-	-	-	-	-	246,859
„ 1859	-	-	-	-	-	198,930
„ 1860	-	-	-	-	-	185,503

The decrease in 1860, compared with 1859, was 13,427 or 6·75 per cent.; but in comparison with 1858 it was 61,356 or 24·85 per cent.

4. The Metropolis still continues to exhibit decreased pauperism on comparing the numbers with the corresponding weeks of 1858 and 1859 respectively. According to the last returns for the month of March in the three years last past the numbers were—

In 1858	-	-	-	-	106,912
„ 1859	-	-	-	-	93,232
„ 1860	-	-	-	-	90,058

In 1860 the decrease in the paupers, as compared with those in 1859, was 3,174 or 3·40 per cent.; but on a comparison with 1858, the diminution was 16,854 or 15·76 per cent.

QUARTERLY STATEMENT AS TO PAUPERISM.—MIDSUMMERE 1860.
(*Paupers in Lunatic Asylums and Vagrants not included.*)

The present Return completes the Monthly Series for the Quarter ended at Midsummer 1860. The four following Tables are given in continuation of those prefixed to the monthly publication for March last.

The Tables are—

- 1st. ENGLAND and WALES ; the pauperism in the consecutive weeks of the quarter.
- 2d. ————— the comparative pauperism of the quarter.
- 3d. NORTH MIDLAND, NORTH WESTERN, and YORK DIVISIONS ; the comparative pauperism of the quarter.
- 4th. THE METROPOLIS ; the comparative pauperism of the quarter.

1. In the first Table, each week, compared with its predecessor, with the exception of the last two weeks, shows a decrease in the number of paupers : 835,614 were the numbers relieved in the last week of March (Lady-day) ; but in the fourth week of June (Midsummer) they had fallen to 785,015, which is a decrease of 50,599, or 6·1 per cent. less at Midsummer than Lady-day.

2. The next Table, like the corresponding ones published for the last five quarters, continues to exhibit considerable diminution in the pauperism on a comparison of 1860 with 1858 and 1859 respectively.

The paupers in receipt of relief on the last day of the last week of June were—

In 1858	-	-	-	-	833,472
„ 1859	-	-	-	-	802,307
„ 1860	-	-	-	-	784,308

The paupers in 1860, as compared with those in 1859, had decreased 17,999 or 2·24 per cent.; but compared with 1858 they had decreased 49,164 or 5·90 per cent.

. The numbers given for 1859 and 1860 respectively, differ slightly from the totals entered in the returns for April, May, and June; this arises from the circumstance of Alverstoke being excluded from Table II. as that place was not in the returns for 1858.

3. The third Table comprises the three divisions of England and Wales in which the principal manufactures are carried on. Taking the returns of paupers relieved on the last day of the last week of June, the numbers were—

In 1858	-	-	-	-	205,368

4. The Metropolis still continues to exhibit decreased pauperism on comparing the numbers with the corresponding weeks of 1858 and 1859 respectively. According to the last returns for the month of June in the three years last past, the numbers were—

In 1858	-	-	-	-	-	85,772
„ 1859	-	-	-	-	-	84,216
„ 1860	-	-	-	-	-	81,868

In 1860 the decrease in the paupers, as compared with those in 1859, was 2,348 or 2·79 per cent.; but on a comparison with 1858 the diminution was 3,904, or 4·55 per cent.

QUARTERLY STATEMENT AS TO PAUPERISM.—MICHAELMAS 1860.

(Paupers in Lunatic Asylums and Vagrants not included.)

The present Return completes the Monthly Series for the quarter ended at Michaelmas 1860. The four following Tables are given here in continuation of those prefixed to the monthly publication for June last.

The Tables are—

1st. ENGLAND and WALES; the pauperism in the consecutive weeks of the quarter.

2d. ————— the comparative pauperism of the quarter.

3d. NORTH MIDLAND, NORTH WESTERN, and YORK DIVISIONS; the comparative pauperism of the quarter.

4th. THE METROPOLIS; the comparative pauperism of the quarter.

1. In the first Table each week is compared with the one immediately preceding it: 785,015 were the numbers relieved in the last week of June (Midsummer); but in the fourth week of September (Michaelmas) they had fallen to 764,916, which is a decrease of 20,099, or 2·6 per cent. less at Michaelmas than Midsummer.

TABLE I.—ENGLAND AND WALES.—Consecutive Statement.

Fourth week - -	764,916	309	—

2. The next Table, like the corresponding ones published for the last six quarters, continues to exhibit considerable diminution in the pauperism, on a comparison of 1860 with 1858 and 1859 respectively.

The paupers in receipt of relief on the last day of the last week of September were—

In 1858	-	-	-	-	811,362
„ 1859	-	-	-	-	783,465
„ 1860	-	-	-	-	764,288

The paupers in 1860, as compared with those in 1859, had decreased 19,177, or 2·45 per cent.; but compared with 1858 they had decreased 47,074 or 5·80 per cent.

* * The numbers given for 1859 and 1860 respectively, differ slightly from the totals entered in the Returns for July, August, and September; this arises from the circumstance of Alverstoke being excluded from Table II., as that place was not in the Returns for 1858.

3. The third Table comprises the three divisions of England and Wales in which the principal manufactures are carried on. Taking the returns of paupers relieved on the last day of the last week of September, the numbers were—

In 1858	-	-	-	-	193,978
„ 1859	-	-	-	-	179,543
„ 1860	-	-	-	-	171,284

The decrease in 1860, compared with 1859, was 8,259, or 4·60 per cent. ; but in comparison with 1858 it was 22,694 or 11·70 per cent.

Fourth week -	193,978	179,543	171,284	—	11·70	—	4·60

4. The Metropolis still continues to exhibit decreased pauperism on comparing the numbers with the corresponding weeks of 1858 and 1859 respectively. According to the last returns for the month of September in the three years last past the numbers were—

In 1858	-	-	-	-	-	85,351
„ 1859	-	-	-	-	-	83,952
„ 1860	-	-	-	-	-	82,506

In 1860 the decrease in the paupers, as compared with those in 1859, was 1,446 or 1·72 per cent.; but on a comparison with 1858, the diminution was 2,845 or 3·33 per cent.

QUARTERLY STATEMENT AS TO PAUPERISM, CHRISTMAS 1860.
(Paupers in Lunatic Asylums and Vagrants not included.)

The Return now published completes this portion of the Series for the year 1860. The four following Tables are given in continuation of those prefixed to the monthly publication for September last.

The Tables are—

- 1st. ENGLAND and WALES ; the pauperism in the consecutive weeks of the quarter.
- 2d. ————— the comparative pauperism of the quarter.
- 3d. NORTH MIDLAND, NORTH WESTERN, and YORK DIVISIONS ; the comparative pauperism of the quarter.
- 4th. THE METROPOLIS ; the comparative pauperism of the quarter.

1. In the first Table, each week is compared with the one immediately preceding it. The last week of the year is higher than the last week of the Michaelmas quarter by 70,213 paupers ; an increase is usual in the winter quarters, and is attributable to the diminution of out-door employment, in consequence of the change in the season.

2. The next Table exhibits the fluctuations in pauperism during the Christmas quarters of 1858, 1859, and 1860.

The paupers in receipt of relief on the last day of the last week of December were —

In 1858	-	-	-	-	-	857,903
„ 1859	-	-	-	-	-	826,773
„ 1860	-	-	-	-	-	834,370

The paupers in 1860, as compared with those in 1859, have increased 7,597, or 0·92 per cent.; but compared with 1858 they have decreased 23,533, or 2·74 per cent.

* * The numbers given for 1859 and 1860, respectively, differ slightly from the totals entered in the Returns for October, November, and December; this arises from the circumstance of Alverstoke being excluded from Table II., as that place was not in the Returns for 1858.

3. The third Table comprises the three divisions of England and Wales, in which the principal manufactures are carried on. Taking the returns of paupers relieved on the last day of the last week of December, the numbers were —

In 1858	-	-	-	-	-	200,343
„ 1859	-	-	-	-	-	186,401
„ 1860	-	-	-	-	-	184,864

The decrease in 1860, compared with 1859, was 1,537, or 0·82 per cent. ; but in comparison with 1858 it was 15,479, or 7·73 per cent.

4. The Metropolis shows an increase of pauperism, on comparing the numbers with the corresponding weeks of 1860 and 1859. According to the last returns for the month of December in the three years last past, the numbers were —

In 1858	-	-	-	-	-	95,898
„ 1859	-	-	-	-	-	91,665
„ 1860	-	-	-	-	-	95,237

In 1860 the increase in the paupers, as compared with those in 1859, was 3,572, or 3·90 per cent.; but on a comparison with 1858, there is a decrease of 661, or 0·69 per cent.

No. 30.

REMARKS ON THE RETURN OF INSANE PAUPERS, CHARGEABLE ON THE
1st JANUARY 1860. (No. 208. (E.L.) Sess. 1860.)

Source of
Information.

1. The Statistics of Pauper Insanity contained in this paper have been compiled from the lists of "Lunatics, Idiots, and other Persons of Unsound Mind," who were chargeable to the Poor Rates on the 1st January 1860. These lists are made out annually by the Clerks to the Guardians and transmitted to the Poor Law Board, in compliance with the 16 & 17 Vict. c. 97. s. 64., and in the form prescribed by Schedule D. of that Statute.

Places re-
turned.

2. Returns have been received from 646* Unions and Single Parishes under Boards of Guardians; the Population of these places, according to the Census of 1851, is 17,670,938; but, estimated to the 1st January 1860, it is 19,645,000. The number of Insane Paupers chargeable to the Poor Rates in those places, on that day, is shown below :—

Number of Paupers on 1st January 1860.	Whereof were Insane Paupers.	Namely :—	
		Lunatics.	Idiota.
850,896	31,543	22,378	9,165

Thus 3·71 per cent. of the pauperism, on the 1st January last, is ascribable to Insanity; the Lunatics being 2·63 per cent., and the Idiots 1·08 per cent.

Proportion
of the Sexes.

3. In regard to the sexes, 13,896 were Males, and 17,647 Females :—

INSANE.	MALES.	FEMALES.	TOTAL.
Lunatics - -	9,667	12,711	22,378
Idiota - -	4,229	4,936	9,165
TOTAL -	13,896	17,647	31,543

Insane
Paupers,
January
1860.

4. In the next Statement the number of Lunatic and Idiot Paupers are shown for each Division of England and Wales, with the total number of Paupers of all classes relieved on the same day.

* Besides these Unions, some places, which do not make the usual Returns of Pauperism to the Poor Law Board, have transmitted lists of Insane Paupers. The total number of Insane Paupers so returned is 64; viz., 41 Lunatics and 23 Idiots; the particulars are printed, with the other Unions, at page 12, *et seq.* of the Parliamentary Paper.

5. The 31,543 Insane Paupers were maintained in the following Residences establishments, or were lodged with strangers, or resided with their of the In- relatives ; namely — sane.

- 16,201 in County or Borough Lunatic Asylums.
- 1,143 in Registered Hospitals, or in Licensed Houses.
- 8,210 in Union or Parish Workhouses.
- 785 in Lodgings, or Boarded Out.
- 5,204 Residing with Relatives.

Of the small number returned as “ In Lodgings, or Boarded Out,” 337, or more than *one third*, are chargeable to Parishes in Wales.

6. The average weekly expense of each Insane Pauper, is printed Average weekly ex- opposite the respective Unions, at page 13, et seq.* The aggregate pense. weekly expense of the Insane Paupers, obtained by multiplying the average expense by the number chargeable on the 1st January, was 9,989*l.* 3*s.* 8*d.*; it may therefore be estimated that the cost to the Unions for the year ended at Lady-day 1860 was about 520,000*l.*

From want of space the usual “ Industrial Statistics ” have not been printed in this paper in respect of the separate Unions, but they will be found in detail in Return (B.) or (C.) of this series.
